

# Generation Y Student Data Text Fields

## Teacher Follow-Up Survey

What were your favorite parts of the Generation Y model or services?

**District:**

**School:** Georghe Wythe High School

Reading about the programs and projects each school system presented to their class mates.

---

**School:** Warrensburg Central

Actually working with the students and discovering something new together.

---

**District:** **Ashland School District**

**School:** Ashland Middle School

I liked all of the information on interacting with partner teachers.

---

**District:** **Bayfield School District**

**School:** Bayfield School

Giving students authentic tasks and the opportunities for teachers to integrate technology before they had all of the skills.

---

**District:** **Bethel School District**

**School:** Spannaway Junior High School

Very quick to respond to needs; Nancy Hogan was a great liason for the program

---

It all worked very well. The support has always been very friendly and quick to respond to problems.

---

**District:** **Bishop Kelly**

**School:** Bishop Kelly High School

I love the student-teacher collaboration and partnership. It is great to see the students work with one of their teachers. I have loved watching the skills they acquire and the mature lessons they learn. It is most rewarding when they are finished with their projects and they are so proud to show them to our class. It is even more rewarding when the partner-teacher comes in and is so excited about the work the student has done.

---

**District:** Caney Valley USD 436

**School:** Lincoln Memorial Elementary School

John, Dennis, and all the Gen Y staff have always been VERY supportive and helpful. Thank you sooo much. Ya'll are great. The best part of it all for me was seeing the PowerPoints being delivered on the "big screen" and how the classes responded to the Partner Teacher and student. We also had an informal "Graduation/Pizza Party" for the student's parents to come and see what their child had been working on all year. I had 14 of the 16 student's parents attend. They were all very complimentary and excited. They would like to see it continue next year,

---

**District:** Cincinnati Public Schools

**School:** Crest Hills Elementary School

My favorite part was working with the students, and see how quickly they grasped computer and internet skills, and to see the creativity they demonstrated as their personalities showed through their work.

---

**School:** Hughes Center High School

The curriculum! The online tools!

---

Working the kids and seeing them as adults with expert knowledge. The best is learning from the kids. That's what we do most as geny teachers; learn from the kids. Also, watching our kids present the geny model at the state and district conferences was so cool. The students were shining with pride. We were not in the limelight at all. Instead it was all the kids.

---

**District:** Clover Park School District

**School:** Southgate Elementary School

Access to information and help when I needed it were very important to me.

---

**District:** Colville School District

**School:** Colville Junior High School

Working with the students and teachers and seeing the success.

---

**District:** Dearborn Heights Sch Dist 7

**School:** Pardee Elementary School

I think that the students being able to partner with the teacher and serve as their mentor is great.

---

**School:** Polk Elementary School

see

---

**District: Denali Boro School Distirct**

**School: Dublin Elementary School**

---

I liked seeing the growth of my students and how they evolved over the semester.

---

The presentation unit -- really helped kids build confidence. The PORT project -- It would have been nice to do a second one if only there was time.

---

**District: Drummond Area SD**

**School: Drummond Elementary School**

---

archives gave partners teachers direction

---

**District: Ell-Saline Unified School District 307**

**School: El Saline High School**

---

The support staff services you can use for the Gen-Y program.

---

**District: Ferndale School District**

**School: Ferndale High School**

---

The online classroom management was very helpful.

---

Watching teachers gain confidence in expanding their technology knowledge.

---

**District: Grandview School District**

**School: A.H. Smith Elementary School**

---

Genwhy lets kids learn technology and then they get to be teachers, too. They love both parts. I wish more could be involved.

---

**District: Hartford Central School District**

**School: Hartford Central**

---

The immediate feedback and patience with the staff of GenY.

---

**District:** Hayward Community School District

**School:** Hayward Intern. School

---

Idea of partnering with a teacher.

---

**District:** Herndon School USD 317

**School:** Herndon

---

Curriculum guide was good. Underlying theory of the model was good.

---

**District:** Hill City Unified School District 281

**School:** Longfellow Middle School

---

Last year's notebook resources.

---

**District:** Indian Lake Central School District

**School:** Indian Lake Central

---

Seeing the student finish their project.

---

**District:** Lake Washington Public Schools

**School:** Rose Hill Junior High School

---

PORT

---

**District:** Maple School District

**School:** Northwestern Middle School

---

Working with the students.

---

**District:** Mellen School District

**School:** Mellen School

---

Students liked the OCN. We liked the spring showcase of gen Y projects from neighboring schools. This was run by our local Cooperative Educational Services Agency.

---

**District:** Minerva Central

**School:** Minerva Central

No comment

---

**District:** North Thurston School District

**School:** Meadows Elementary School

Kids working with each other cooperatively, the creativity, the special relationships between Partner teachers and students.

---

**District:** Northwood School District

**School:** Northwood School

The curriculum was great and the John H. and Dennis H. were very helpful when questions need to be answered and guidance was needed.

---

**District:** Olympia School District

**School:** Jefferson Middle School

The new teacher curriculum guide and the resources on the Web page are outstanding. They really help me offer a quality class.

---

**School:** McKinney Elementary School

Students love presenting their skills and expertise to preservice teachers and visiting guests. They showcase their knowledge and exhibit great poise and confidence. Students who may be generally shy and quiet are able to confidently present, explain, and share their learning. It always gives me goosebumps to watch these kids blossom and shine!

---

**School:** Pioneer Elementary School

watching kids help each other and watching them "fly" through menus and toolbars

---

**District:** Park Falls School District

**School:** Lincoln Jr. High School (Park Falls)

website/infopages were good.

---

**District:** Private Schools (St. Thomas/St. John)

**School:** Prophcy Elementary School

---

**District: Private Schools (St. Thomas/St. John)**

**School: Prophecy Elementary School**

My favorite part was working with the kids on the projects. The excitement of the students was very refreshing.

---

**School: Sts. Peter & Paul High School**

The teaching sessions with the students. Their enthusiasm to learn and to be part of the learning process. I learnt so much about how children learn. They also taught me a lot about the actual technology.

---

**District: South Brown County 430**

**School: Everest Middle School**

I feel the bases of the model is a terrific idea. The kids were excited even when they were frustrated with the lack of instructional materials.

---

**District: Triplains USD 275**

**School: Triplains USD 275**

Watching the students grow from learning parts of technology not offered in the school.

---

**District: USD 405 Lyons**

**School: Lyons Middle School**

The first three units

---

The consultant's feedback was an exciting part. The students really liked having someone else reviewing their projects and giving them not only criticism, but also hints and ideas to make their projects better.

---

**District: Vallivue School District**

**School: Vallivue High School**

I love seeing the ingenious ways students come up with using technology. Their creativity in their project designs really demonstrates what individuals they are.

---

None. I really didn't use them or have a need for their use.

---

**School: Vallivue Middle School**

**District:** Vallivue School District

**School:** Vallivue Middle School

---

The projects that the students create show a high degree of learning.

---

I love getting to work with the teachers and students.

---

**District:** West Linn - Wilsonville

**School:** Boones Ferry Elementary School

---

I really like the idea of partnering students with teachers, to make students technology mentors. I enjoyed facilitating learning about specific technologies via the Gen Y curriculum. I greatly appreciated the on-line feedback from consultants about project proposals.

---

**District:** Wichita Public Schools 259

**School:** Allison Traditional

---

Working with the students.

---

**School:** Heights High School

---

I enjoy working with the students on their projects and particularly with the partner teachers.

---

My favorite part of the course is the completed projects and the responses from the students as they present their projects to the classes.

---

**District:** Winter School District

**School:** Winter School

---

My favorite part was the completed projects. The students really took pride in their accomplishments. The way the students all pulled together to help one another was great. They were always willing to give of themselves.

---
