

Generation Y Student Data Text Fields

Student Post-Survey

How has your experience in Generation Y changed the way you think or feel about yourself?

District:

School: Warrensburg Central

my experience in gen Y was good i know how to do more things and i would like to do it again

It made me feel that I know hoe to use a computer better.

it changed just a little bit.

I think I spend WAY to much time on computers

I feel that i don't just have to do just type and be bored, you can have fun.

I know how to do alot of things I couldn't have done before.

I now feel more confident about the way i use the computers and when i help adults that I am doing everything the right way.

No

it did not

now i know more about computers than i did before and i am glad that i joined.

I am much more confident about myself . I can help other people now with what I leaned this year.

District:

School: Warrensburg Central

ithought geny was a very good program

it has helped me to feel more confident about projects.

District: **Abilene Public Schools**

School: Abilene High School

No, not really, although it has piqued an interest in filmmaking.

I feel that Generation www.Y has changed my outlook on myself and my confidence working with new technology and experimenting with new concepts. I feel that I can be more confident with my knowledge of programs and computers and use that to facilitate a m

District: **Albany Diocese School District**

School: St. Clements Catholic

I liked it.

I am more sure of my computer skills.

I was proud of our show.

School: St. Mary's Academy

i feel the same, i do not think that genyes helped me much

I don't think I have really changed .

I don't think I have really changed at all. I might be smarter, that's all.

District: Albany Diocese School District

School: St. Mary's Academy

Gen Y has taught me how to use software, and powerpoint, I also improved on my digital scanner skills, and my scanner skills.

I feel like I can learn how to teach other people how to use software.

Generation www.y gave me a better experience on how to use the scanner, mimeo, and the digital camera. I have learned a lot more. I know now more about the history of Hoosick Falls and about the computer and other software and hardware. It improved my skill

It hasn't changed my view on myself or any of classmates on the contrary it has only refined my opinion.

I think it really didn't change me at all.

That I know more about my town and it helped me type better.

No, it has not changed the way I feel about myself.

It changed the way I think about myself because now I know more about my town.

It changed the way I think about myself because now I know more about my town.

It hasn't.

It hasn't changed me at all !!!!

Gen Y has changed the way I feel and think about myself because I now know more about my town and its past.

District: Ashland School District

School: Ashland Middle School

District: Ashland School District

School: Ashland Middle School

No, not really.

i'm now a computer geek...officially

I think i know more about some computer things.

I have learned that this has made me a better person because I have gotten a better understanding of myself and my abilities.

I am more comfortable using PowerPoint. I understand more about computers.

I think I have more confidence in myself now.

I am more comfortable using PowerPoint. I understand more about computers.

The experience of being in GenY has changed my idea about myself because I am more confident in my computer skills.

Gen Y has made it easier to speak to people and made me feel good about myself

District: Bellingham School District

School: Shuksan Middle School

I feel much more confident in my ability to create web pages.

District: Bering Strait School District

School: Tri Valley School

My experience was very good because we had to do researched countries and we had to teach the high schoolers how to work in Microsoft Word. I had to do three countries. I found that I really like helping other kids.

District: Bering Strait School District

School: Tri Valley School

Harry and I had good experience because we had to teach the 1-2 graders. I felt good about teaching to the little kids.

I learned a lot when I taught little kids about technology. I felt so good teaching them because I like teaching little kids.

I didn't know that Gen-Y was fun, but sometimes confusing. It change me that I can do something with our culture way of life.

That there were opportunities learning alot of stuff like the scanner,power point presentations,digital camera and it made me feel like a professional.

At first , I didn't know how to use digital cameras and save pictures in my file. I also learned how to cut and paste information on Microsoft Word. I feel for confident about using technology.

My experience was very good because we made some Star Reader posters and then we sent them to the kids who get 90% or better in Success For All. I feel better than before because I learned more about graphic design.

The experience in Generation www.y changed the way I feel about myself because I am smarter. I didn't know how to do Geny when I first learned it. The way I feel happy about the teachers because they made us learn how to do the Geny things we need to kno

I felt happy helping Linda with the posters and desighing the posters any way we want.I think Linda is a good partner teacher. I learned how to go to adobe page maker to make a poster. I found that I work well with others.

At first, I didn't know how to use Gen Why project and I also don't know how to use a digital camera.I feel happy to help the second graders. I think I akm a pretty good teacher.

I feel beter because of Gen Y

yes

I thought it would hard but it was a ittle hard but I got done with it.

District: Bering Strait School District

School: Tri Valley School

i had confidence in myself trying to learn new things

It was pretty fun mostly making powerpoints.

I didn't know I could do it.

I thought it was ezz but it hard and i never finishit.

District: Bethel School District

School: Spannaway Junior High School

I feel more confident about using technology and I understand technology and the web more better.

It didn't change the way I felt about myself, it helped me learn a couple of new things about computers and soft/hardware, but I still feel and think about myself in basically the same.

This class has not changed anything about my feeling towards myself. Sure i was proud of my project, but I'm proud of all my projects. Although I really enjoy working with electronics. I feel as if I could have been challenged a little more.

My Experience In Gen-Y was geat it was fun and esy to do.

We feel More comfortble with technology with technology and filming and hope to make filming a career.

676kiyuliy;ouuiyrtryurwgyuwrutgrtehjtjyjykykutku

this class has taught me more about technology and the way computers work and the different things that they are capable of. This was a very good experience for me and my technology skills.

its helped me become more confident of my technology skills and i've learned alot.

District: Bethel School District

School: Spannaway Junior High School

Now that i know more about technology i can help people and also do things on my own. It makes me feel proud.

not at all

My experience in Generation www.Y changed the way I feel about myself because it made me feel like I knew what I was doing with computers and technology.

I realized ,thanks to Gen Y, that I know how much fun technology could be.

This Generation class made me think more about the different ideas and trying to make the powerpoint the best as possible. This class was very experenced for me because I had learned more of what I didn't know.I have also learned how to use the different

How it feels about the experience in GenY did change me in getting interest in computers and technology.

it really hasn't changed how i feel about myself but i think differently actually i think less about tech stuff because i just know how to do it now.

It hasn't changed the way I feel about myself at all.

District: Bishop Kelly

School: Bishop Kelly High School

After finishing my project I felt very proud of myself. I was proud that I was able to create the PowerPoint presentation and complete it.

My experience in GenY helped me put to use my computer skills. This made me feel good that I could use my skills to help teachers and fellow students learn.

My experiance in Generation y has shown me that I can make a large powerpoint presentation that is both complete and informative.

I feel a lot more confident about my skills on the computer. I learned a lot of things that I didn't know and I am happy with my new skills.

District: Bishop Kelly

School: Bishop Kelly High School

I really liked getting to work with a partner-teacher and making things for her class. It made me more confident with working with the software.

My Generation Y class has helped me learn how to create a web site and use my computer skills to help other classes.

Generation www.Y has given me more confidence because I know I can do things I didn't think I could do.

I understand computers more and I'm also willing to work with them.

District: Calloway County School District

School: Calloway County Middle School

It was fun because I got to present in front of my class. I think the class learned a lot from my presentation.

It has made me feel like I can be of some assistance to the class with the project I have created.

I now feel I'm more than just a person. I'm special in ways I'm smart.

I like technology more

I am glad to have learned more about using computer software. It was fun to create a game to help my classmates prepare for the test over certain subjects. I enjoy GenY and look forward to creating a web page for teachers in my school. I hope to be able

District: Caney Valley USD 436

School: Lincoln Memorial Elementary School

I feel proud of myself.

I Like Myself Better.

District: Caney Valley USD 436

School: Lincoln Memorial Elementary School

It didn't really change me any.

I think ya !

It made me confednt to do other things.

I think it made me think how lucky we are to have GenY cause most people don't know a lot about computers.

i like computers better

i like computers better

It makes me feel smarter

Before I thought i would never learn to use computers put now im one of the best in the class with computers.

N/A

I know that I can do something right.

I can type better than I use to also how to do email and it was a good experience.

District: Cincinnati Public Schools

School: Crest Hills Elementary School

It has made me feel any different because not only did I learn new computer skills i made my own web page.

District: Cincinnati Public Schools

School: Crest Hills Elementary School

I had a great time working on the net and learning about my favorite car, the Xadillac Eldorado. It is a cool car. I did a very good job making up my project, and I did a very nice presentation for Ms. Sneed's students. They liked it a lot. They clapped.

i feel like i know more then when i started and i like to learn more about this program.

My experience in Generation www.y made me feel like I knew more about computers and that I was just a little bit smarter.

i feel that geny helped me develope the skills to use and interact with the sources of the computer and eqpment around me.

it made me feel smarter about learning new things

It made me more confident about myself that I can do a lot of things if I am willing.

School: Hughes Center High School

It made me think about how great my accomplishments could be if I just apply myself to it.

It has made me think of myself as a good person that can do difficult things

Yes.It has gotten me interested in making a senior video and web site development

Being in genyes has changed the way I feel about technology and using computers. I think that computers are useful outlets to different places in the world.

District: Clark County School District

School: Las Vegas High School

I feel better about working with teachers and that other people besides myself like the web sites I make.

District: Clark County School District

School: Las Vegas High School

Well I feel and think that now I can help students/teachers use computers and technology more.

It just felt that i could work on something with my teacher that was fun for me and her.

no

I think it has helped me a lot, and I've learned many new interesting things. Now i can show people not just learn!

My experience in Gen Y has taught me to be flexible and adaptable to other classes. I liked the fact on how I was persistant and had ideas in mind that I actually carried out in real life.

District: Clover Park School District

School: Southgate Elementary School

I'm smarter about using technology. I can use the scanner for scanning stuff, research on the internet,use the digital camera,and use Microsoft Word for making reports and writing letters.I can use Microsoft PowerPoint for and slide shows to help make lea

I know I can finish thing I started.I learned alot in Gen Y, and I thought alot. I think everyone should join Gen Y, even if they don't have computer skills.

I don't really know.

I thought using a digital camera and scanning was hard and that I could not do it. Now I find these things really easy. My typing skills have improved too. I have also learned how to work in a team environment.

First of all I feel that I learned more,met new friends,and had fun.It has also improved my skills on technology,on the computer,and other subjects.

I think my experience at gen y changed the way I fell because I know more technology now then before.

I'm a lot better on computer than I was last time. Now I know how to use my computer at home when I need it.

District: Clover Park School District

School: Southgate Elementary School

Generation Y. made me feel more responsible, prod of myself, and it changed me by knowing how to use technoligy on the computer.

District: Colville School District

School: Colville Junior High School

it has not changed me at all

the experience in genY has made me more comfortbly working on the computer and working with the programs that we use todo the projects. My feeling chage because if I don't know I can trouble shoot the probluim .

I feel more confident on computers. I'm not always worried I'm goning to do some thing wrong (and that is good). I can type faster then i ever ould and I learned how to woh others computers, even if we're not in the same room. I also learned how to do

It shows me that I know how to work computers more than I did.

i think that geny has changed me by the way i will use other peoples stuff.

I think that I learned alot this semester about computers and software. I feel more confident with computers know then I ever did.

It makes me more sukier in using computers.

It has not realy changed me at all.

I feel more secure about making web pages.

Im more smarter and know alot more about computers.

I feel that the geny has changed the way i will work on a computer, as the same with different types of of softwre. i also learned how to use a scanner and a digitl camera.

District: Colville School District

School: Colville Junior High School

WEll... i learned how to use a computer better and how to use software i have never used before, and i thought it was great to be able to help a class with skills for working succesfully with others(my powerpoint presentation)

It has changed my knowledge about computers and allows me to help people that need help.

No, GenY hasn't changed the way I think and feel about myself.But,it has helped me with my computer skills and my people skills.

District: Dearborn Heights Sch Dist 7

School: Annapolis Sr. High School

It didn't, I don't know why it would, but it didn't.

Good experiences with the teachers

no.

The the Generation-Y has not change the way I think of myself. I was able to do most of the tasks that were taught before this class. The ones I did not know were not even used.

Well it hepled me speak out more to people.

My experience in Generation Y did not change the way that I think or feel about myself for the reason that I knew alot of what was taught in this class and what I had expected from this class did happen.

This was not much of a advanced learning experience for me. It did help me with my communication skills between the teachers and I also learned how to use a digital camera because i've never been able to use one until this class.

It makes me feel like I know something that other people don't and that makes me proud!

It made me more confident in standing up in front of a group of people.

District: Dearborn Heights Sch Dist 7

School: Annapolis Sr. High School

It made me feel satisfied with myself because I got to see how so many other students learned from the presentations I made.

I feel the same about myself.

I feel that I can help someone like technology. And that technology is a good thing in this case.

I was happy to learn new things. I learned not to be as easily frustrated with computers. I was happy to finish projects because I was a much slower worker than my other classmates. I kept messing up and felt very much in the dark when I needed help.

It gave me more confidence in preparing Power Point presentations. I am glad that I learned how to do this, it will help me in both work and school in the future.

to use new technology.

My experience in Generationwww.y has not changed the way i feel about myself, but it was a fun class.

I am able to talk in front of large group of people easier.

Generation Yes has made me more better with working with PowerPoint and searching the internet.

School: Bedford Elementary School

I think I know a lot more about computers than I ever did before.

Generation Yes has taught me that the internet isn't just for playing games.It's is for learning. It's for helping you do your school work.

Genyes change the way I feel about myself because I feel proud to finish my projet

District: Dearborn Heights Sch Dist 7

School: Bedford Elementary School

It has changed my life around computers. I have learned many things like PowerPoint.

My experience is very good because i like to work with computers a lot. It has tought me a lot about how to do thing differinet.

My experience about generation y is really great, because it has teached me a lot of new thing.

It has helped me feel smarter than I was before because I learned a lot more about computers.

I think I got more info on computers and on dog sled racing

Generation Y was a great experince and i am glad i took it.

I THINK THAT GENERATION Y IS A GOOD EXPREINCE AND I AM GLAD I TOOK IT

It made me feel better about using computers in front of people.

it made me feel good and tought me things that i did not learn before.

I feel really good about my self.

It has made me smarter with todays technology and all the things that we will need in our later years

School: Madison School

I think i'm real smart now.

District: Dearborn Heights Sch Dist 7

School: Madison School

Yes because now i know how to do stuff i didnt know how to do before. It makes me feel achievment

It taught me lots of things I didn't know! It was cool!

I learned more things about computers.

My experience in Gen Y changed the I think about myself is now I think that I can help people a lot better and know that I can help people and give them the right infirmation.

I learned more about the computer and the internet.

i feel pretty good about it because what i know now i didnt know now i got smater.

It has changed the way I think about myself because I feel much more confident in the way and the time I have to complete the project.

I can work better with my classmates and I feel more confident with working with icons and the internet.

Gen Yes changed the way I think about myself because now I mnow how to do things that I didn't know.

It has made me belive that I can achieve more things on a computer.

I now feel that I can learn and do anything if I put my mind to it.

I don't konw

District: Dearborn Heights Sch Dist 7

School: Madison School

I used to think that computers weren't very fun, but now, I feel good about computers.

I feel great now that I can do many things on the computer that I did not know.

It changed nothing but I got smarter.

I think it has changed the way I think and feel about myself because I have more confidence in myself.

School: Oakley W. Best Middle School

im happy ,im feeling glad, i got sunshine in a bag im useles but not for long the future is commin on, is commin on,is commin on, is commin on,is commin on, is commin on,is commin on, is commin on, is commin on, is commin on, finally someone let me out of

I think if i put my mind to it that i can do almost anything if i have a little help from the internet.l

I know a lot more about everything on a computer.

It really did not change the way I think or feel.

Well, now I feel that I can do more things on the internet. It also helped me alot on how to use the computer more efficiantly.

I feel more responsible knowing that I can be trusted to help teachers with technology.

yes a lot

i feel now that i can do more stuff than when i wasn't in this class.

District: Dearborn Heights Sch Dist 7

School: Oakley W. Best Middle School

It help me alot.It helped me to think straight and to focus on something.My grades are higher and I'm doing better.And I can study harder for my test.

It didn't change how think or feel.

I fell better about using technology. It has over all been a very good and exciting expirence.I have learned alot and am very thankfull about that. This was very fun.

Gen y didn't only help me learn more about computers but it help me learn about the subject of my presentation.

I know more things on the computer and I learned how to use a digital camera I know now how to use power point and I feel really good that I know how to do these things.

I know some things that I never knew.

Im more confedent about using computers.

School: Pardee Elementary School

Now that I'm in Geny I know alot about computers.I feel happy because I can teach more people everything I know.

I think I am good at something now. Also learned I love doing some thing I'm good at. I also loved doing gen y.

Yes because now i know how to use some really cool technolgy so now i know that i can do powerpoints,and hyperstudio.

By giving me the confidence to do a PowerPoint presentation.

I feel I learned some new stuff in Generation Yes. I am more educated than when I started Generation Yes.

District: Dearborn Heights Sch Dist 7

School: Pardee Elementary School

I know more about computers and the internet than I did before.

I feel good about my project.

Yes. I feel like I'm able to do more to help people because I'm good with the computer. It gives me a higher level of self-esteem. Students and other pupils at my school look up to me (because I know how to handle a computer in the correct way).

yes. Good I'm able to use the computer

It gave me a challenge to work on a PowerPoint Presentation of Famous Black Americans and I also learned more about famous black Americans.

I can be confident about myself when I use a computer.

I never knew how to use a computer. Now I know and I know how to type faster.

I never knew how to use a computer. Now I know and I know how to type faster.

I learned more about computers. It is a really fun way of learning!!!!

I only learned about computers. I still think about myself the same way.

School: Polk Elementary School

I feel I can accomplish more. I think it helped the students and me. It is useful in many ways, like teaching, helping, and learning. I know how to do more now that I'm in this class.

I think that when I was not in Generation Y I did not like to deal with computers and now I do.

District: Dearborn Heights Sch Dist 7

School: Polk Elementary School

I now alot about computers.

I don't really think that it has done anything for the way I feel about myself.

It makes me feel encouredged that I can teach a class

Since I've been in geny I've learned more things about a technology.

I have a lot of confitence in myself and I can use computers better.

Being in gen y has changed the way I feel because I feel better knowing how to use technology.

Generation y changed the way I think about things because now I know alot about different resources on the internet that I didn't know how to do before. And I'm proud of myself that I did a project to help my teacher and younger students and I have accomp

Thanks to Gen Y I feel that I now know alot more about computers and that now I can do alot of many different projects. I now know that I am capalbe to do alot of helpful things on the internet and other things.

District: Denali Boro School Distirct

School: Dublin Elementary School

I am ablke to speak about technology and other issues more easily and professionally.

I feel stronger as a student and feel I can strongly voice my opinions.

I feel like I can help other students with technology, and other subjects.

It made me realize that I can teach other students new things and they can benifit from what I am telling them.

District: Denali Boro School Distirct

School: Dublin Elementary School

I became more confident in myself using technology.

My experience with Gen www.Y has helped me with speaking skills and given me a big step in organizing information.

It has made me a better person by making me face my peers and show them what I know.

I'm not to sure that it has changed the way i feel really because I have always been able to teach in front of classes and speak to big groups of people.

Anyone can teach anyone if they are willing to learn.

District: Derby Unified School District 260

School: Derby Middle School

Gen Y has made me feel better of my self about showing me presentations and other things. I feel proud to show my projects and be my classes Gen Y rep.

I know what I need for a good presentation for the future.

I am confident now!

It is easier to do projects because i dont have a ot of questions.

I think gen www.y is helping me in alot of ways like I now know more and I know I can do things better now.

I now think better about myself when I do projects for a teacher. I also think it will be easier to do technology related porjects for a teacher.

District: Drummond Area SD

School: Drummond Elementary School

District: Drummond Area SD

School: Drummond Elementary School

I know more about computers.

i feel i learn about a lot of technoligy from www.y

very good I feel very good

it didnt really change any thing only that i stayed after school on tusedays

I like to use a computers now.

It hasn't changed very much, except it helped me learn more on the computers.

Good

That now I now how to use a coumputer a lot better and now I can help other people how to do some things.

i feel good that i took the www.y class and that i got to do alot more stoff in school

It was very fun. I enjoyed it. It made me feel very independent.

It made me feel good about myself because I learned some new stuff and how to do it. So now I go home and teach my mom.

District: Dublin Unified School District

School: Nielson Elementary School

It doesn't change a thing except now I know how much of a help I can be to students at the school. I discovered more things while working on PowerPoint, and surfing the Web. I have learned alot more now!!!

District: Dublin Unified School District

School: Nielson Elementary School

It made me feel like I knew more about computers.

I like school a little bit more now because I always think of the things I am going to do at Gen Y. I can go to alot of other internet sites when I get home. I loved Gen Y. this year. It gave me more experience being on the computer. I learned about a qua

I now believe in myself and think I can do anything!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! --Danielle and Alicia

It makes me think differently, because I now know more than I thought I was going to learn.

I think about myself being able to use the computer and I feel a lot smarter about technology.

I have had a wonderful year. I learned how to email people in my Gen Y class. Also, I learned how to put graphics on my email, called an attachment. That was really fun. I learned how to make a powerpoint presentation. With no doubt, that was probably th

I think it changed alot because, before I didn't know anything about computers,now I know almost everything about computers like, powerpoint, internet, etc.

I like working on computers better. I also like power point better. I'm more confident.

School: Wells Middle School

my experiance with gen-y helped learn more things

I think that I learned that technology is fun. Also I learned that in knew a lot about technology. Lastly I learned that teachers in may school do not know a lot about technology. It is very easy to teach them. THEY are willing to learn a lot of things ab

Nothing really.

It has helped me feel good about myself now I know that I can do something that my parents cannot.

District: Dublin Unified School District

School: Wells Middle School

It made me realize Stuff

My exprience changed alot. I felt googd about myself. Now I know alot about computers. Now I can help my sister with sonnethings.

School: El Saline High School

I feelmore comfortable teaching others and working with them to make something the best it can be.

i think more now that i know what to do with computers.

I feel I can work with computers better than I did before starting this class.

It hasn't changed at all.

I have more confidence in technology.

District: Ferndale School District

School: Ferndale High School

I think that my life is the busiest it has ever been, and I am getting the most out of everything that I am taking, including Gen www.y because I get to utilize my knowledge well. I also get to teach others while listening to them just as much, if not mo

I feel like I have learned a good skill (Power Point) that I will be able to utilize later on.

I used to be completely computer illiterate but now after taking the class I know that I can overcome a lot more obstacles.

I am better able to talk with adults, and I know I need to manage time better.

District: Ferndale School District

School: Ferndale High School

I feel that I can learn something and teach others how to do it without showing but by using explanations to tell them how to fix their problems.

I am more confident in my computer skills and I am feel like immersing myself in computer technology even more. Talking to teachers on a person-to-person level is even more comfortable for me.

I feel like I know more things so I am more confident in myself.

I found my own limitations and boundries, but they were mostly interwoven with time.

I feel comfortable using and scanner adn software associated with it.

I know now that I am able to do an independant project and meet the deadline. It has also given me self confidence because I was able to accomplish a project and learn how to create a website with little help.

I have learned that teachers value students input.

Gen Y has given me more confidence when it comes to technology.

I don't think it changed anything. It wasn't really a "different" experiance.

Gen www.Y has given me more confidence in my technology abilities at school, as well as at home.

While being in Generation www.Y i developed a lot more confidence in myself.

It makes me feel better about my self.

District: Ferndale School District

School: Ferndale High School

confidence with using technology

It didn't really affect me. Our project was based on people giving us information to enter into a database. We never got a lot of information and thus, never had a lot to do. If anything, I feel guilty that I didn't do much. I met with my partner ever

My experience has not changed the way I think or feel about myself.

I am much more confident about my level of technology skills, as well as my ability to learn new technology-related things!

I think that I really feel more confident in the technology area. I also have got better with working with adults and working independently.

I have a little more confidence in my technological literacy.

District: Grandview School District

School: A.H. Smith Elementary School

It let me not be so nervous talking in front of people.

It has changed because I learned how to type without looking at the key board and it has also changed because I know how to do a PowerPoint.

It changed myself because Ms. Carlson taught me things i didn't know about computers. It also changed me because my partner teacher was my teacher and my friend and I made a homepage.

It made me learn everything about computer.

I know more about technology and working with computers.

It changed by helping me think it was easy than what I thought.

District: Grandview School District

School: A.H. Smith Elementary School

I know alot about computers now. I know how to send email now.

It changed me because it made me feel good after school if i had a bad day because the people there made me happy.

It changed me because I learned how to do powerpoint.I also changed because Ms. Carlson helped me copy and paste!

It changed because Ms.Carlson teached us things we didn'tKnow.It also changed me because it was my first time and I learned alot more than I knew.Also my partner teacher was my teacher and my best friend.

I feel happy about being in gen why.

It made me feel more capable of more things. And now I can use my skills.

I feel better about myself because I know more about computers and I can teach a class.

District: Hartford Central School District

School: Hartford Central

I had a good expeirience with Gen-Y it made me feel really proud

Generation www.Y has taught me many new things about computer programs. I feel more confident when creating things on the computer, making projects, or searching the web because I learned how to do this more efficiently in GenY.

My experiance in Generation www.Y changed the way I feel, because I know mostly what would be doing on a computer.

It has changed the way that I think about myself by helping me learn computer.

Generation Y has changed the way I think about myself. Now I will always know at some pionts I will get frustrated at computers. Now I am not shy when I get up in front of everyone to do a presentation.

District: **Hartford Central School District**

School: **Hartford Central**

I'm more positive and confident about my work better than I was in the beginning of the year.

in feel the same

I feel more confident about my skills on the computer and everything else I do.

I think that I am more confident about using computer software now that I use skills I learn in GenY.

District: **Hayward Community School District**

School: **Hayward Intern. School**

It changed the way I think and feel about myself because after I took the Generation www.Y I felt like I learned a lot more about technology.

Gen Y has made me learn more about computers.

Now I feel that I can do a lot of things in technology that a lot of other people can't do.

It makes me feel like I know about computers.

It makes me feel proud to know that I can help other kids do projects.

I am proud. I feel that I have helped other kids. I feel that my GenY teacher helped and taught me a look about the computer and its software

Since being in GenY, I probably learned more about computers than before this class. It makes me feel good knowing I at least learned something.

I don't think that there is much of a difference in the way I think and feel.

District: **Hayward Community School District**

School: **Hayward Intern. School**

It changed the way I thought some things happened in computers.

I feel better about myself about using technology.

I feel more comfortable using technology and I feel more confident working with teachers and helping them.

District: **Herndon School USD 317**

School: **Herndon**

Geny has not changed the I think or feel about myself.

It didn't change anything for me!

I feel more like a teacher.

I feel more like a leader and a teacher. I feel like I can make a difference.

I think and feel that I am know able to use a comuter as a learning tool to help others ans well as myself.

District: **Hill City Unified School District 281**

School: **Longfellow Middle School**

I know how to look on the internet and make a web pages so i know i did something knew.

My experience has'nt changed any of my feelings about myself it was just another class for me.

I feel more confident that I can use the computer and search the Internet without much hassle. I can search the Internet more easily now and run the digital camera easily.

District: Hill City Unified School District 281

School: Longfellow Middle School

Now that I am in Gen Y I am more confident about the different programs that I use.

It did not change the way I thought about myself.

I feel alot better about yself and proud.

I am more confident of my computer and technology skills.

I feel better about myself and my project showed what I could do.

It has changed the i think and fell about myself is i learned more than i thought i would

I dont think my experiance in Gen Y changed the way i feel about myself at all.

I feel better

I feel more comfortable wsing a computer than before i I was in this class.

I am not nervous about speaking in front of a big group anymore.

Well i feel alot more smarter than the start of this simester.I feel that i can do this again or forever.

The genyes program made me understand more about computers and technology and stuff like that. It made me feel like i knew i could finished anything i started.

District: Hill City Unified School District 281

School: Longfellow Middle School

I think that now I am a better speaker. I can get up in front of people and talk without being nervous.

Generation Y has changed me by helping me understand the basics of computer problem solving. I now know how to set up a Web page for the community and a learning spreadsheet for the students.

It changed the way I see myself as a individual.

it hasn't

I can use a computer better than I could before.

It made me know I could use a computer

It makes me feel more comfortable talking publicly and when I am in charge of a group of people.

i now know how to use hardware and software.

It hasn't.

Generation Y has not changed the way I feel about myself.

I feel that I have learned a lot and that this helped me get to know the teachers more. It was a very good experience for me

It made me feel good because of the fact that I learned more about computers and other things along with that. I learned to use a digital camera and a scanner. I am glad I got the chance to learn how to use these.

District: Hill City Unified School District 281

School: Longfellow Middle School

I feel smarter than I did at the beginning of the school year. I now know how to set up presentation software and a Web page.

I now know more about the software and hardware i am required to use.I am also better at working on the computer.

I used to think that I knew nothing about computers and that I would never learn to do anything on a computer, until I got into Generation www.Y. Now I know that I am able to learn things on a computer and that computers are fun.

It changed the way I think because now I more experience with technology and I know what hardware and software I a required to use.

I feel that i had done something good to help other kids about the computer.

I feel better about myself because I taught young childern about the computer.

It makes me feel good because I learned how to use a scanner, digital camera, and to take the pictures from the digital camera and put it on the web page.

It has made me feel pretty good for helping a partner--teacher with one thing instead of a class.

District: Hudson Falls School District

School: Hudson Falls Middle School

My experiance in Generationwww.y changed me because now i am more confident about my self and my work!

it hasn,t

My experiance in Generation www.Yes changed the way I think and or feel about myself. I have become more confident that I can do good work and still have it finished by a deadline. I think that I have now become ready for the outside world and I would lik

It changed the way I way I think by making more open minded to technology.

District: Hurley School District

School: Hurley High School

I'm better at using the computer and now I can teach my grandpa.

I'm better at using the computer and now I can teach my grandpa.

District: Indian Lake Central School District

School: Indian Lake Central

i feel good about my self

I feel good about being able to make a web site .for .the .people .of Indian la.ke3 and +6a4alkdsjf.laks OufdpoijsIflkaf;lakdss

well it help me see that i am a fast typer and that comes in handy when you are typing all this code.

Yes, I feel like i am able to think about myself better. i like to touch my self and rub my bodie all around, at night i put oils on and bouce my parts.

District: Kent School District

School: Sunrise Elementary School

My experience has made me feel good about my self and that I can achieve more if I just try. I also learned that I can sometimes teach someone a new skill.

It makes me feel good to know that I know how to use a computer. So now,I spend alot of time typing e-mails and stories!

Generation www.y changed the way I think or feel about myselfis by making a web site.

Geny has made me feel good about computers. I had a great time!

Generation www.Y tought me different things, so now I fell confident that I now how to use these things.

District: Kent School District

School: Sunrise Elementary School

I feel more confident about myself, I am more comfortable working with teachers, and I have improved my public speaking skills.

Generation www.y changed the way I think about myself by making me more confident.

I am just happy that I learned all the stuff I did. Sometimes it was REALLY boring and sometimes it was fun.

I was able to create large Powerpoint presentations on my own, which I couldn't do before.

It made me want to learn about computers more often.

This has not changed the way I feel about myself but I am glad that I was able to learn how to use scanners, digital cameras, and learn how to make a business card.

I feel more comfortable around computers. I can create school projects quickly and easily now.

It has changed the way I feel about myself by teaching me how to use scanners and digital cameras.

I am now very confident teaching other students. I know more about computers.

I feel more confident in myself and not as shy.

I am not afraid to stand up in the class and I think I know more about computers and technology than used to know and even more knowledge about computers than my dad does.

District: Lake Washington Public Schools

School: Inglewood Junior High School

Not at all.

District: Lake Washington Public Schools

School: Inglewood Junior High School

I feel that I can do more with a computer and anything digital I feel I can do.

Don't know

I'm proud of my finished projects, but I believe that I can get jobs done better when I have others set directions and goals for me.

I think the proposal feedback from GenYes.org SUCKED!!!!!! I had my proposal posted for a week or more, and never received anything.

It really hasn't changed my picture of myself but it gives me a new perspective of how things can get done.

I know i have the proper skills to complete a given assignment.

yes it has taught me to be less shy.

I dont know. i guess i feel that i know alot more about computers.

It has made me feel like i am capable of doing great things.

i found a new friend, my computer

I realized ho much I can do with technology and how much I knew about computers.

I now know that I can accomplish more things involving technology.

School: Rose Hill Junior High School

District: Lake Washington Public Schools

School: Rose Hill Junior High School

It has made me think I am a smarted person who can use a variety of different computer programs like flash, powerpoint, and frontpage.

Before I worked on Generaion Yes program, I didn't know anything about how to create web pages. But now, I know how to do that. And so I'm proud of myself. I like to use the computer, so it was really fun to use this program and did new thing.

I felt like I learned more things and how to use more software on the computer.

Well, i know how to run different softwares and creating a webpage wasn't as hard as i thought that it would be.

It hasnt changed the way I think or feel about myself.

District: Maple School District

School: Northwestern Middle School

I feel confident with my ability to teach others to use technology.

I feel like I am able to do more with computers and other technology. I feel like I can actually teach people some stuff about computers and other stuff. I had a lot of fun in genyes and I'm glad that I was in it.

It has changed my for the better and i will never forget it.

I have to say that it was pretty exciting to be in a group like this. I had been in one a little like it before, and we built webpages in that one. I liked the teachers, and how we were able to just try and figure out things on our own.

It didn't really change that much of what I felt towards myself other than I feel a little higher of myeself because I got something accomplished.

I am more confident using technology, and not afraid to learn.

District: Marion Unified School District 408

School: TEEN Consortium

District: Marion Unified School District 408

School: TEEN Consortium

It tough me to do stuff that I really didnt know how to do on computers. It also help me so I can get up in front of class and talk about how I did something on the computer.

It makes me think I know more about computers, because I do now. It was a pretty fun experience, but I wish we could of had more than 30 minutes everyday.

I am able to use computer software easier and I am more sure about how well a project will turn out.

District: Mellen School District

School: Mellen School

I think it helps me in school because i am sure i can do somthing i put my mind to.

I feel the same now as i did back when i started the class... Nothing really changed

Yes, I am more sure of my abilities to help others learn and understand new things/topics.

I feel like I know more about technology. I learned to use the scanner, take digital pictures and create a powerpoint presentation. I never knew how to do this before.

I feel that i can do just about anything if I really try to do it.

District: Milken Community Schools

School: Milken Community High School

I know now that my work makes a difference. I was able to "work" behind the scenes in order to give students in all Hebrew classes a new and creative way to learn the songs. I am more confident about speaking in front of people and I have learned manners

hi

District: Millard Public Schools

In no way at all.

District: Minerva Central

School: Minerva Central

It has not.

I fell better about myself.I can type alot faster than usual.

I felt fine about myself then and i still feel fine about myself.

I feel that I know more about computer technology.

No.

It didn't really.

District: Newton USD 373

School: Santa Fe Middle School

I has not realy changed the way I think about myself but it has about my prospective of others by that I can help people that do not know anything about computers and help them learn because I am very good at it.

The way Gen Y has changed the way I think about myself is that it gave me a lot more self confidence and taught me a lot more about computer technology.

I think first of doing something technically instead of using a pencil and paper now.

I has not realy changed the way I think about myself but it has about my prospective of others by that I can help people that do not know anything about computers and help them learn because I am very good at it.

District: **Newton USD 373**

School: **Santa Fe Middle School**

I feel more computer-smart and I know enjoy speaking in front of large groups.

Hasn't

Hasn't

My experience in GenY has changed the way I feel about my self by being able to stand in front of a classroom of kids and not get as many buterflies in my stomach and being able to communicate with teachers better.

I think I am more confident to speak up, and talk in front of other people in class.

I think i know more about a computer than I ever have before. And things are easier to help others with.

I am more confident

It makes me more confident that I know more about computers and that I can help others if they need computer help. I also know how to make webpages and know how much work is really put into them and apprieciate them more.

District: **North Thurston School District**

School: **Meadows Elementary School**

My experience in Genetation www.Y was fun and I like going on the enternet.

My experience in generation Y has made me feel important and has made me have confendence in my self.

My experience has changed how I think, beause I can be proud of myself for doing well and knowing how to use computers.

It hasn't changed.

District: North Thurston School District

School: Meadows Elementary School

I feel that I can use the computers more easily and I feel more comfortable with them.

I feel that my brain has some more information in it. I also feel more comfortable around computers.

not really sure.

It changed how I think by making it so I think how to do something better.

Generation Y has changed me as a person. I now know how to get information of the internet without losing it, and putting the pictures into my project.

District: North Warren School District

School: North Warren Central

Gen Y helped me feel good about myself because i feel i am good at something now.

I think i feel more Technology smart.

I have become more confident in the work I hand in and I feel more comfortable working on computers and with other things we used during GenY

It changed because I feel independent.

It has made me a bit more proud of my self.

Gen y helped me feel better about myself by teaching me new computer skills and to tipe faster.

District: Northwood School District

School: Northwood School

District: Northwood School District

School: Northwood School

I learned a lot about the way my school is operated and how things work for the superintendant & staff.

I learned how to use presentation materials.

District: Oak Harbor School District

School: North Whidby Middle School

I think That I can do any thing now because I have conquered many goals.

Yes

GenY has changed alot of different point of views in my life. I think I might Want a career in computers now! I feel very confident in using a my computer skillls and technology to help me during life. I know I can learn from my mistake.

I think genyes has boosted my confidence in the use of technology.

It has made me more confident in creating webpages and in working with students I have never met before.

Gen Y changed some of my exsperiences on technology. Like what I would do if any thing came up. Also to teach me how I would first pick up the camera.

I think that I am smarter.

It hasn't change how I feel about or think about my self but I feel tired.

I have changed by being enable to use what I have learned and could use it in the computer class on my advatage and to help others.

After GenY I feel like I know more about computer because I do.I was in GenY but I didn't loose anything. I only learned and experienced about ten things.I also got to meet new teachers and friends. I had a lot of fun except for getting up early. I guess

District: Oak Harbor School District

School: North Whidby Middle School

good

I don't think it has really changed me at all.

I feel good about myself because I had a goal and i reached it. I have a reason to go to the Sno-Isle website other than to get a book for myself.

It has change me knowing about computers.

I feel better about the way I do my work, and every time I create a website by raw code, I feel proud that I had learned that.

The way I think is still the same but I know more in the fact that I can add a different kind of thinking to that and I will have more results than before.

Well, it didn't make me change the way i feel about my self it just tought me some thing i didn't know! A computer class will surly not make me change the way i feel because it is just a computer. I know there might be a way that it can make me feel good

It has made me feel more confident when using computers. It's made me happy to be able to create a Web page.

I am now capable of using the computer in ways that are easier or new to me and I feel better about my self knowing that I can help my piers and family with a computer.

District: Olympia School District

School: Boston Harabor Elementary School

It has changed the way I feel about computer technology and how I think about graphing.

I feel better because I know more about computers than I ever did before.

I have alot more nolege about computer.

District: Olympia School District

School: Boston Harbor Elementary School

It made me want to work with computers

changedy nolghage of coumputers

Well while in gen.y it made me more confdent in what I do,and in that I strongly agree.

It has been a great experience!I have had a blast! It felt very good to me that I finished my partner-teacher project.

School: Jefferson Middle School

I think i know more about computers and technology.

i get to learn thing I handt learn yet.

It has changed my limits of what I can get done in an of time.

My experience in Generartion ww.Y has changed the way I think about myself by making me better at presenting.

I dont rely know. I feel more tired. I guess I have learned valueable skills and my life will be sorta changed because I can do things I could not do before.

Generaton ww.Y made me confident in my work on the computer because of how easy it was and I had good teacher to teach it to me.

good

I learned more thinks in Generation Y, like using claris homepage to make a wesite, using the digital camera and the camcorder and scanning pictures.

District: Olympia School District

School: Jefferson Middle School

Well, I think that I now know much more about technology than I did before this semester, and I felt a little more confident than I did earlier.

In 6th grade when I was in Gen www.Y I learned how to use a scanner and other kind of stuff. But I never learned how to use a Adobe PhotoShop and a Camera. I think Gen www.y is a good place for me to learn a little bit more about technology.

I now know that I can teach my dad and mom how to use the computer for their business

As all of my years of Gen Why it was a good experience.

It help me learn more about Adobe Photoshop and making a video and a lot more stuff I haven't use before.

I think now I am more confident with technology and computer skills. This is my second year now but I think this year was great and more helpful.

That doing web pages are fun, and that computers can do lots of stuff.

It makes me feel smarter because now I know How to work on the computer better.

Gen www. Y has made me feel smarter and more proud of myself for being able to use computers and teach others how to use computers.

I learned more about computers and software.

vvgfhgjfghfj

I only know a few more things.

School: L.P. Brown Elementary School

District: Olympia School District

School: L.P. Brown Elementary School

Yes

I feel I'm helpfull to other students about techonolgy.

Generation www.Y has changed the way I feel about myself by inceesing my skill in technology to help me in life. I know this because I have learned skills that my class-mates may never learn.

I think it has helped me a lot. I have learned a lot. Now if there is a problem with something I am working on I can most likely fix it. Just this year has raised my self esteem on technolgy. I am going to do it next year to have even more fun and learn m

I now feel good because I know how to make a web page, do Powerpoint, and billions of other things.

Yes

Yes, because I was able to walk away feeling that I know how to use Microsoft Power Point and that I knew to to do a quality Power Point Presentation on it.

Well before I barly new anything about technology but now I do!

I had a great expierence in gen.y because i had lots to do. I love Gen.Y.

School: McKinney Elementary School

It has made me feel good about myself like I have acomplished something.

good, I feel I know more

I felt good about helping kids in my classroom with technology. I really liked being the teacher to some kids. I learned a lot more about computers and software programs.

District: Olympia School District

School: McKinnev Elementary School

Generation www.Y has made me fell more confident of myself because it really helps me do things on the computer. Example: 1. If I want to make a PowerPoint I know how to do it so it will be really easy! 2. If I would like to use a digital camera I know

Generation www.Y changed the way I feel about myself because I know much more about technology and I can easily socialize with other kids who know as much about computers and with people who don't.

Now I don't have as many computer problems. I feel good about being able to help other students use technology.

Gen www.Y has made me feel good about myself in my classroom because I got to show other students how to use computers and software. I got to work closely with my classroom teacher, and that was fun.

Generation www.Y changed me because now I can use what I learned from Gen www.Y on my computer at home and teach more people. Also I got to learn a lot more about computers all in all Gen www.Y was great!

I really feel like I can find computer problems without to much help. I also feel like I had a lot of succes in Gen www.Y.

I feel more confident about using the computer and other technology after going through Gen www.Y. It has been a really fun experiece, and I want to do it again.

It helped me learn a lot more and now I can help other kids that neen help and my teacher is vary prud of me and i am prud of my self.

I did not know that much than they showed me and now I feel smart,on a iot of computer.

I know more about the computer and don't feel helpless when I try to use it.

Now I feel that i'm confident in technology.

It has helped me feel more confident when working with computers, and more confident about working with other kids and teaching, also showing my work and helping kids in my class.

School: McLane Elementary School

District: Olympia School District

School: McLane Elementary School

I think it helped me learn about computers and I made new friends. the teachers were great and taught me how to work a computer!!!

I feel better about my self because I can do school reports better.

I feel like I know alot more about cumputers then the frist time I started gen.wwwY.

I think it helped me learn about computers, and I met some of new friends. I also think it changed the way I think about teachers helping us learn about computers, because they explained things very well.

It has helped me feel better when a sighn pops up on my computer at home because I would sometimes get nervous when something happened.

I think that it helped me fell like I can have fun on A computer and not half to worry about geting cut of.

It made me fell like the teacher, or like i was alittle bit incharge.

I guess it helped me by teaching me how much technology is used almost every single day. I also like to type now. I learned how to use Power Point for my Washington report.

School: Pioneer Elementary School

Although Gen www.Y has been somewhat interesting, I have simply not learned anything from it. I knew how to use the internet and PowerPoint.

I think that I improved my computer skills and now I would like to amend myself to a higher level in the area of technology.

I have learn a little bit . I feel much more safer using the internet.

I think it changed me because I learned how to use a digital camera just from a slideshow and I learend alot of of other stuff too.

District: Olympia School District

School: Pioneer Elementary School

I know that I am capable of doing much more than I think I do. I have used resources that I never thought I would use. I know more than I did in the beginning of the year. I feel very proud of myself and I know I will succeed.

School: Roosevelt Elementary School - Olympia

It makes me feel like I can actually help somebody and help them in their needs

I feel like I know more about computers.

I just learned this I never use before in my life.

It makes me feel good that I get credit for the 2002 Yearbook in our classroom.

It has made me now that I can help people just by going on the computer.

Yes, I feel great that I learn more about the computer.

I know more about computers and some of my skills I had before have been upgraded To more useful skills all in all I think computers are great it changed to a computer lover!!!!

No, Not really, I just learned how to use computers a little better.

I feel smarter

Generation www.y changed the way I think about myself by letting me do something for my school. I feel like I did something important.

District: Othello School District

School: McFarland Junior High School

District: Othello School District

School: McFarland Junior High School

I know a lot more about computers and I feel smarter. I like to show off to other students and teachers the new things I learned.

Yes it helped me understand technology and it teached me how to use a computer a lot better than i did before. It made me feel that i can do something involved with technology.

GenY has changed the way i think about myself by helping me with new things that i didn't no how to do and it makes me feel good to do stuff i didn't know how to do.

Yes, it helped me understand and how to use computers.

Yes, Gen Y has changed the way i think about myself by showing me that i'm smarter than i think i'am.

It Changed the way I think about technology. I have more skills and understanding of computer soft ware.

My experience in the Gen Y class hasn't really changed the way that I think about my self at all. All that it has done is given me a better understanding about computers.

It changed the way I think about myself because now I feel smarter and I can trust myself using computers more than I could before.

I feel smrt

It made me more confident about computers. Also that people will actually watch my powerpoint.

i feel that i can do all things in gen y class and that i am willing to help others everywhere i go. i feel very happy that i had a priviladge that i was in this class. thank you! i feel that people will be proud of me when they see my project.

I know more about computers

District: Othello School District

School: McFarland Junior High School

It was fun.

District: Park Falls School District

School: Lincoln Jr. High School (Park Falls)

I feel proud of what i accomplished in GenY. It was fun to help others learn and create something new.

The presentations i put together were great. It felt good to hear compliments about them. It's cool to go online and see the web site I created!

I feel good for being a part of this. It felt good to get picked.

I feel better about myself because i created a neat project and was a part of a group after school.

I feel more confident with my computer skills.

The experience in Gen Y has not changed the way I think or feel about myself.

I learned more computer skills like how to use microsoft publisher.

I had to show my work to a lot of pepole. I learned to be sure of myself and to feel good about what I am capable of.

I'm proud of what I did for my project. It was fun to be able to do something so cool as making a movie

District: Phillips School District

School: Phillips Middle School

Yes, because it helped me build my own website and I am very proud of it.

District: Phillips School District

School: Phillips Middle School

I feel better about my self because I know how to do more things with the computers.

I Know now that I can use some technology

District: Plainfield School District

School: Plainfield High School

I really enjoyed the Gen Y experience. I learned alot from it. Now I know I can design projects, and create power points. I can do a lot more with computers now. It's an example that shows that I can do anything I put my mind to.

IT CHANGED ME A LOT. NOW I'M PROUD OF MYSELF BECAUSE I KNOW HOW TO USE A LOT OF TECHNOLOGY ON THE COMPUTER AND THAT COULD USE IN THE FUTURE.

It hasn't changed the way i feel about myself.

I made me feel that I could do alot more on my own. Be more independent

My experiece as a Gen Y student opened up my eyes to being able to use powerpoint and all other resources from a computer. From this point on i will be using power point in any upcoming presentations. I feel as though Gen Y has made me believe that i c

It made me feel that I had a responsiblity to help to myself, my teacher, and my classmates technolgy in a different way.

It makes me feel really good because I got to learn more as well as another teacher that didn't know about this gen y. class. It also gave her a chance to see what I do in other classes and gave her a chance to learn something new.

This experience was very enlightening. I learned a lot about using technology to transfer simple lesson plans into on screen interesting powerpoint presentations. I feel that I can do anything in the world or technology.

District: Plymouth Christian Youth Center

School: Plymouth Christian Center

I feel good because I find out new things.

District: Plymouth Christian Youth Center

School: Plymouth Christian Center

it didn't

District: Prince George's County Schools

School: High Point High School

Honestly this class has made me feel more self concious and less out going my love of technology ahs faded.

The work I did in this class did very little to change the way I felt about myself, simply because this course wasn't as hard as some other courses I have taken, or are taking, such as AP US History.

School: Largo High School

Although, I often became overwhelmed with work at times the drive in me to complete this project gave me a greater sense of self worth upon completion of this project.

I feel good knowing I can do something with myself. If I put my mind to it, I can really do it.

Not by much. I knew everything before I entered the class. Now I am sure of that.

District: Private School (WA)

School: St. Michaels School

I feel better because I know more about computers and can solve computer problems.

I now know tecnology better and have confidence in my self!

I feel like I know a lot of technology

I feel that I have learned a lot of things

District: Private School (WA)

School: St. Michaels School

I feel that i know more about technology and how to use it. I feel like I have accomplished a lot in Gen Y and I really am glad that I signed up for the class.

I know how to use lots of different software, and have learned to do a lot of things with technology I never have done before.

I feel more encouraged that I know about technology and software.

I feel more confident about doing things myself and not doing it just because another person is doing it

It makes me feel like I can do a lot more things on my computer. I think that I learned a lot. I actually got the printer at my house to work after I observed what my Gen www.Y teacher did.

I feel as if I have been taught lots of stuff in so little time.

District: Private Schools (St. Thomas/St. John)

School: Moravian Schools

It is good I feel good

It didn't change how I feel about myself.

It hasn't changed the way I think or feel about myself.

nothing

Generation www.Y has made me feel no better than before it just gives me a little more knowledge about computers.

School: Prophecy Elementary School

District: Private Schools (St. Thomas/St. John)

School: Prophesy Elementary School

it has made me very confident in the things i do

I feel good because I can do a lot of things on the computer I never knew before. I can help my mom with things she needs done on the computer now.

it has made me feel good about myself

it has made me feel good about myself

I feel very confident in using the computer.

it has made me very confident in the things i do

it has made me very confident in the things i do

I feel new ideas about technology.

Things had been uninteresting these days.

School: Sts. Peter & Paul High School

I feel more confident in knowing that I can use a computer more efficiently and responsibly.

District: Queensbury Union FreeSchool District

School: Queensbury Middle School

The experience in GenY has not exactly changed my feelings or the way I think that greatly, but it has changed how many different ways that technology can be applied to school academics.

District: Queensbury Union FreeSchool District

School: Queensbury Middle School

My Generation www.Y experience has givin my a few new, important skills I probably wouldn't have learned by myself. I think it was a lot of fun and I learned some interesting things.

Generation www.Y changed the way I think. I learned new things.

I think that Gen Y helped me understand that I had a good deal of tecnolgy.

My experience in Generation www.Y has changed the way I think and feel about myself in many ways. First of all I feel more technically advanced and I feel that I could teach a class how to use new and more excellerated programs successfully.

My experience in Generation www.Y changed the way I think and feel about myself. I now know that I can make a very advanced webpage! I also feel that I will be able to teach other teachers, adults, or kids how to use a computer program. This class has tau

I feel that it is a good experience and it will help me if I choose to go into the thechnology feild.

Generation www.Y has changed the way I think about myself because I had never actually got up in front of people to teach them something before, and I think that this has helped me to start doing this more often.

District: Renwick USD 267

School: Andale Middle School

Before I didn't think I knew alot about computers, digital cameras, scanners, technology. I knew alot more than I ecer expected to learn! It was a great experience for me to learn all there is to learn about our schools technology.

It has helped me gain the confidence that I can learn new technology. I learned a lot of new technology and hope to keep learning.

It has changed the way I think or feel about myself by helping me feel better about working on knew technology.

Gen-Y has tought me a lot. I feel that I have learned plenty about technology. I know much more than I started out this year.

I think I am much smarter and know more now. I love coming to GenY and learn new things about technology.

District: Renwick USD 267

School: Andale Middle School

I think I got smarter.I can do more on the computer. Its a lot easier to work computers now.

I am more confident in public speaking. I can now speak in front of people without getting so nervous. Also I have learned how to teach kids because they have lots of questions.

I feel like I have learned a lot in Gen Y.It is easy now to work on the computers.

It has made me feel better about myself because I have taught someone something and that makes me feel good.

It changed me because I know a lot more about the world and its technology. Now that I know more about the new technology.When the kids were really easy to work with so it made my job easier to do while helping my partner-teacher.

District: Ritenour SD

School: Hoech Middle School

I learned how to use new technology.

I learned how to do a lot more with computers.

Don't Know

i dont know and dont care

It showed me that I can help students learn important lessons.

I feel a lot more confident with my self. Like to get up in front of a class and teach or even just to talk.

dont know

District: Ritenour SD

School: Hoech Middle School

I feel that I can take more responsibility.

District: Seattle School District

School: Asa Mercer Middle School

Yes it has because now I'm more confident on how to use computers.

I still feel the same as always.

It changed a little bit.knowing that i know how to use technology and teach others subjects in school because i have learned to use some of the stuff.it makes mer feel smarter.

Generation www. Y has changed the way I think about myself. I say this since after presenting my PowerPoint presentation to my partner-teacher's class I think that I can control and teach a class.

I feel that I have learned very little about technology in Gen. Y. The knowledge I already have is more than enough for an 8th grader. Though some kids might find the program useful.

It was good that I learned more about computers

It hasn't changed me much since day 1 of this class.

My experience in Generation www.Y changed me by giving me more confidence using different programs on a computer.

the way i think so is by me learning new things.

District: Solon Springs School District

School: Solon Springs School

I think that I accomplished a lot more in technology than I knew before from Gen Y.

District: Solon Springs School District

School: Solon Springs School

It makes me more confident in my abilities to create projects for the youth.

I think I have done something worthwhile with my life now. I now am satisfied because I have contributed to someone else's life.

It made me a little more sure of myself when talking in front of a crowd.

It did not.

Well, not really i just think it was a good learning experience for all of us. And the teachers.

District: South Brown County 430

School: Everest Middle School

no

It has taught me how to use the internet and how to use e-mail and how to send e-mail.

I feel that I know more about how to use technology

I experienced that I can make webpages, and make links, and all kinds of good stuff. I can even fix computers..

It hasn't changed me one bit. I think that the class was fun in some ways but in others it was really boring.

It was a fun class it taught me a lot about the internet and how to do different projects and it helped me out so when I go home and I have trouble I will know what to do because they taught me new stuff that I didn't have a clue on so I was glad that I to

I think that I am better with computers and such like that.

District: South Brown County 430

School: Everest Middle School

I now think that I am a special person and I can now help people with what I didn't use to be able to do.

It has made me become a better learner on how to use technology. I have also showed me how to make a web page and send e-mail to my partner teacher.

I feel better and feel more responsible with technology and expensive machinery.

The way I feel different is I am not afraid to talk in front of classes, other students, or big groups now that this is over.

It has not changed anything.

It makes me feel good, because I have helped other people learn something new.

Yes it has. I feel better about myself that I have been through Generation Y.

I feel that I know more about computers and stuff on the Internet.

District: South Kitsap School District

School: Cedar Heights Junior High School

I don't exactly know. It mostly made me better and more experienced with computers.

Nada

I feel better with powerpoint and frontpage.

Just the same.

District: South Kitsap School District

School: Cedar Heights Junior High School

It has not changed me that much, I was affended often and so I didn't feel all that great about my self then. But other times it has not changed me.

i feel that i no a little bit more about the computer and i am happy with what i learned

i know alot more about computers

It made me feel that I could work with people, and not being shy. It also made me more comfortable presenting in front of a class.

It really hasnt changed the way that I fell about myself because I still fell the same way.

I did not realize how much I knew about technology until I was in gen-Y

I have now found out how to do things that I have never done before and now I have an easier time on the computer.

this class has helped me tramendasly

no

District: St. Thomas/St. John School District

School: Ivana Eudora Kean High School

I know that if I put my mind to it, that I would be able to anything.

I think that this class help me to realize that using technology to teach in a class is a very fun and new way to learn things.

Generation Y has changed the way I think and feel about myself.Now I that teachers can learn from students and that students can help them teach differently to adjust to the learning capability of students and technological advacements.

District: St. Thomas/St. John School District

School: Ivana Eudora Kean High School

Being apart of the generation www.y class allowed my to become more confident in using a computer to do different things.

My experience taking the GenY class was a nice experience. I never thought that working with a teacher would be some much fun, Bcause I think that teacher's are so hard to work with. But I was wrong.

Well the experience in Geneartion www.Y class have changed the way I feel about myself because I now have the confidence to work with a teacher and teach the class a lesson that they didn't know or didn't fully understand. Knowing that I helped them earn

As a result of my generation www.Y project, I strongly believe that I can do anything but it just takes work and determination. I felt so excited to work with my counselor on PowerPoint and if I had the chance I would do it all over again.

My experience in the Generation www.Y class have changed my life in such a way that I am now able to rely more on technology. I feel that now anything could be possibly completed through the use of computers.

District: Triplains USD 275

School: Triplains USD 275

It has helped me become more creative and positive about myself.

Gave me more responsibilites of creativity but also had to learn to work with the teacher to meet her expectations at the end.

It helped me alot by giving me more experience with PowerPoint and Print Shop. It made me feel useful in other classes because I knew more than they did so i could help them.

District: USD 405 Lyons

School: Lyons Middle School

I feel better about my technology knowledge.

I feel that I know more about the computers that I would have if I would not have taken this class, and I feel relaxed around the computer.

I think I helped more people and did more things than I thought I could.

District: USD 405 Lyons

School: Lyons Middle School

I feel that i know more about computers than i ever had!

Computer work is so much easier. All I ever do now when I get home is work on the computer.

I learned more about technology and working with other people.

GenY taught me a lot of skills about the computer, and now I know more abut the computer.

Yes I learned that there was alot of technology skills I still haven't used.

Its made me feel better, because it has taught me a lot of things that I had not known, but now I do because of this project.

Generation yes was a good experiance. I liek the idea that you got to teach the teacher instead of her teaching you. Also i learned all about the deffrent things to a computer. It was a nice experiance.

I think I learned more and I feel better about it.

I know more aboute computers

I am more comfortable talking infront of people. I am proud of myself for learning better talking skills.

I feel more confident about using a comuter

It makes me feel that I am on task with this generation and makes me think I'm alittle smarter on the technology parts.

District: USD 405 Lyons

School: Lyons Middle School

No not really. It has helped learn new things about technology though.

i knew alot more about computers than i thought i did

District: Vallivue School District

School: Vallivue High School

It hasn't changed at all. I don't know anything new so I can't feel proud and iI all ready knew most of the stuff so I didn't feel stupid.

i don't think it has changed me much. i think that it has enabled me to help others a little bit more.

It hasn't changed the way I feel about myself.

My experience in Generation www.Y has changed the way I think or feel about myself by my completion of a good project. It Improved my self esteem

CONFIDENT ENOUGH TO WORK WITH SOMEONE ELSE AND TO BE ABLE TO STATE MY OPINION IN THEIRS

I know I can get multiple presentations done and fused together into one great presentation.

No.

I learned how to use powerpoint so that helped me a lot

i know i am better at computers now then before i started

I really can't answer that because I 'm not really good at computers.But Gen Y was an cool class.

District: Vallivue School District

School: Vallivue High School

None whatsoever. I don't ever really do anything in here. It's more like a study hall w/ credits.

Gen Y helped me to be more comfortable around teachers and being able to talk one on one. Having a teacher as more of a friend has helped me gain self-esteem in the class room.

confident and knowing the ability to talk to other teachers that i didn't know

It really has not changed the way I think or feel about myself at all.

It helped me to learn that teachers are very approachable, therefore it helped me in the classroom with my self-esteem to speak up and talk to the teacher.

it hasn't

I feel better about how I can teach a new technology to somebody else. Mainly an adult.

it made me feel like i could help out more than was expected.

Gen Y Helped me to work with other people, and different teachers.

My experience in Generation Y has changed the way I feel or think about myself by showing how to use technology and eventually be able to teach the teachers and that is a really good experience.

It did not change the way I think or feel about myself.

The experience i have had in gen y has changed how i think about myself because i feel like i know more and can teach others.

District: Vallivue School District

School: Vallivue High School

The way I think about myself has definately not changed because of gen Y.

What i experienced in Gen Y was alot of things. I learned alot of things that I know i will use in the future. Gen Y was a wonderful experience for me. Don't procrastinate. That is what I learned. If you want something done don't just sit there and wait f

School: Vallivue Middle School

It has't rally except for the fact that now I know more about computers, and that means that now I dont feel so bad for knowing so little, because there were others that kneyw less than me.

It has changed the way I feel about computers.

YEs. Gen Y.has made me more confident when I work with computers.

I guess GenY has made me feel more confindent about the upcoming future, and how I will excel with technology.

Now I'm worse than before I scare myself its sooooo bad, I go up to a computer & say "hello"! Jest joking, I now feel more confortable with computers.

I guess GenY has made me feel more confindent about the upcoming future, and how I will excel with technology.

Generation yes did not make me feel anything about myself.

Generation yes did not make me feel anything about myself.

I have learned alot. It was so cool to present to our teachers at the inservice. I felt like I was an expert.

It was a very positive experience for me. I loved presenting my lessons to the teachers at the inservice. It was cool to see that the teachers did not always know everything and that they could learn something from me, a kid.

District: Vallivue School District

School: Vallivue Middle School

I feel that this program has changed my life around. I now want to be with nothing else but computers. Just joking. At the beginning of this semester I couldn't even log on, so now I feel a lot more comfortable with technology.

I am glad that I can do better on PowerPoint and that makes me feel good that I know that.

I love Gen Y. I feel like it is preparing me for the technology world of the future.

it makes me feel like i know how to work on the computer more and how to do more on the computer.

I used to never volunteer to answer questions in class. I hate to even raise my hand because someone might call on me. Now I find myself less scared to do things.

I think that I feel better about myself because I did something different.

This class made me feel more confident about computers.

This class made me feel more confident about computers.

I am aware of how I can use technology to reach my peers by creating a project for the principal.

Not really, it's just another class for me. Although someone in there is REALLY annoying but it still didn't change anything. :)

Nothing

I have been involved in Gen Y for 3 semesters and it just keeps getting better. I loved being the boss of the teachers.

District: Vallivue School District

School: Vallivue Middle School

I feel better about myself, because I did something that was useful for the principal.

It has helped me learn a bit more about computers. This has given me more computer skills so it makes me a better computer person.

YES. Gen Y has made me more confident when I work with computers.

District: Washburn School District

School: Dupont Middle School

Better!

I can do more things on a computer.

I know more about how to use technology and working with other kids.

I learned more about computers. I feel good and proud.

It has NOT changed the way I think or feel about myself.

Well I am not as shy anymore around the teachers anymore.

I feel smarter! My brother is the computer brainiac at my house and now I cant do some things he can't!

My experience in GenYes changed the way I think and feel about myself, because now I know alot more about computer technology.

District: Washburn School District

School: Dupont Middle School

Because now I can use computers ,digital camara,and scanner.It is fun to teach and other stuff. Now I can help people on there computers and other things that I learn about in gen yes.

not much because i knew lots of computer things before the class.

I think gen yes helped me with computers, scanners, and more. Now that I know how to do this, I can make a power point presentation, and I can have fun doing my work a different way.

District: West Franklin Unified School District 28

School: Pomona Middle School

I'm alot better on telling how computers work.

Made me more confident.

I feel smarter when it comes to computers, and I am learning how to type better than how I use to. I feel good, because when others need help I can help them.

I feel the same way about myself.

It helped me learn about computer stuff. It makes me feel confident to use a computer.

I feel more comfortable about using new age technology.

The class didn't really help me because I already knew how to do most of the things like word processing and creating web pages and Hyperstudio. It didn't really help me.

District: West Linn - Wilsonville

School: Boones Ferry Elementary School

It has changed me because I can do more computer stuff here and at home.

District: West Linn - Wilsonville

School: Boones Ferry Elementary School

I feel a lot more confident

I know how to make a web page and how to make a slide show using Microsoft Power Point and the Intel Microscop.

Now i feel that I am capable of more things on the internet.

I feel way better about myself and computers.

I have a better understanding of computers, I got to do something with other kids (which happen to be younger kids.) And i loved it.

It made me feel like I could do more on a computer.

I Think I feel better with computers, I am more confident about computers.

I feel way better about myself and computers.

well I know it taught me more technology.

I feel more like a technology kind of guy now from my teachers point of view.

I feel more updated on using computers.

I really feel better about how I worked with computers. Now when people say in safety classes that I shouldn't fix computer problems, I say..."I have done a computer project and so now I just call my parents and say I'm gonna fix it."

District: West Linn - Wilsonville

School: Boones Ferry Elementary School

I feel like I know more about computers and how to use them and I also am more confident with school research projects.

District: White Pass School District

School: Glenoma Elementary School

I think it changed my technology skills a lot.

No it did not change the way I think about myself or my feelings.

No it did not change the way I think about myself or my feelings.

It makes me feel great that I now know more about computers and that I have gotten to teach. It has been great working on this project. I loved it so much.

It helped a lot by just using the computers and learning more and more each day.

District: Wichita Public Schools 259

School: Allison Traditional

I feel like I can talk in front of a lot of people comfortably without getting really nervous. It makes me feel pretty good about how the kids reacted to some of the graphics in our presentation.

I feel more knowledgeable about computers and technology in general.

I feel that I can do more with technology. I also feel more comfortable doing presentations.

The experience was good. I now know that I know a lot about computers and how they work.

I don't think it did much for making me feel better about myself. I just know how well I work with computers and a digital camera. I now know what all I can and can not do on the computer, without help.

District: Wichita Public Schools 259

School: Allison Traditional

It hasn't changed the way I feel or think about myself.

now I think I try a little more than I used to I don't give up so easily

It helped me learn more than I knew about computers. I was glad I was in this class.

I feel that I can teach who ever needs help on computers.

I use computers more than usual

I feel better about computers and surfing the web. I feel that I have learned a bunch this semester about technology and the changing world.

It was fun and I got better at powerpoint presentations.

I can accomplish anything

It made me realize I can do anything if I try And relearned how to make a website.

I feel great about what I did to help people learn.

I strongly feel that I could have worked harder. As a result of that, I am going to work on my project every night, very hard, and make it even better than it would have been. I am now looking at myself differently. I need to work harder to be better.

It makes me think that I can do something even if I'm working on a slow, crappy computer.

District: Wichita Public Schools 259

School: Allison Traditional

I am proud of myself at first i didn't kknow how i would get this project done but I did and i am happy about that

It helped me know that I was able to do things that I thought weren't possible. I feel more accomplished.

I have more confidence to try and fix something at my home computer. I have learned how to use webpro and make a web site.

IT hasnt reallyu changed the way I think or feel.

I feel better

I now feel that I am not as helpless when it comes to power point.

I had never thought that I could ever make a video. Now with this experience I will be able to put what I know now into action.

This experience really didn't change anything

I feel like of learned more and understand how to make a power point presentation.

my expreience has made me realize tht you must have patience in doing things..that you wont aslways get things done right away.

A little bit but not much.

I now know that I can do A whol project on my onw instead of in a group. I fell smarter.

School: Brooks Magnet

District: Wichita Public Schools 259

School: Brooks Magnet

not really

Now I know that I can help a teacher.

It was made me more confident.

it hasn't

It really didn't change anything but I know that it was hard working with the computers with freezing and all.

It really hasn't

It hasn't really. I feel the same way that I have always felt.

It has not.

I feel like I am an expert in making webpages

It help me learn new stuff about computers. I learn how to put pages on blackboard.

This experience Has not changed the way ifeel about my self

It has changed the way I feel about typing. I feel that I can type much better than before I took this class.

District: Wichita Public Schools 259

School: Brooks Magnet

I feel more comfortable with using powerpoint and I am proud of myself for learning how to use email.

it showed me that i can do anything i set my mind to

I know now that teachers and students can work well with eachother. And now I know that i can work well with other people.

I feel like i can do a little teaching about technology to teachers and help them with creating things that they can use for their classes

School: Hadley Middle School

not much.

School: Heights High School

Not much...it was just another place where I could practice my "already learned" skills a bit more before I move on out of school for good.

Generation www.Y has changed the way I view classwork. Classwork can be fun and exciting.

i had fun

it did not changed me much but it made me feel better about my self

I came in thinking that I would learn many new things in regard to technology, to discover that I already knew a lot but hadn't been applying it. Generation www.Y allowed me to do this. It gave me the chance to use what I knew to develop technology in my

I have proved to myself that I can successfully compleate a powerpoint presentation.

None really s just glad i got to work with computers.

District: Wichita Public Schools 259

School: Heights High School

I effectively learned how to present information in front of my peers.

My experience in Generation www.Y changed the way I feel about myself working with a teacher on a project, it can be a good experience and not a painful one.

School: Robinson Middle School

I feel better about getting on a computer, and downloading Screen savers, Games ect.. because I know how to undo vires WORD

I know a lot more about using a computer than I did when I started out. I now know how to use a digital camera. I can download it, and edit it.

I feel more confident with my computer skills.

I had fun filming and editing, and now I am more comfortable with a camera.I had a lot of fun in this class!

Yeah, now I'm more confident about myself. also, I'm not that scared about doing something wrong, I use to be scared about getting on a computer, and some how breaking a computer.

i worked a lot on filming movie with a digital camera

I have learned much about computers that I didn't know in the past and it has helped me and I am now able to fix most computer problems I have at home or with any other computers!

I've learned a lot more about computers through this program, and I had fun.

I think I have a better understanding of technology and i am more sure of myself when I try to fix problems. I have also been doing better presentations in class and getting better grades for those presentations.

District: Winter School District

School: Winter School
