

Generation Y Student Data Text Fields

Student Post-Survey

How has your experience in Generation Y changed the way you think or feel about school and teachers?

District:

School: Warrensburg Central

it has made me to realize that it is very hard to teach others and explain.

It has made me feel like I'm smarter.

????????????????????????????

I think I'm lucky to have Nice teachers.

it's a lot easier to help other people who don't know how to do some things.

I feel that I know more things about a computer than a teacher.

No Way

It did not change the way I think or feel.

not really

I already thought that school and the teachers so I think the same.

I am more closer to my teacher. I just have gotten used to the way he is and I really like being with him.

District: Abilene Public Schools

School: Abilene High School

I think that the school has a lot of technology that students do not take advantage for. Also students don't give enough credit to the teachers and school for the knowledge and technology that they do have.

Not directly, although it has helped me continue to be interested in school this year.

District: Albany Diocese School District

School: St. Clements Catholic

It hasn't.

It was fun to work with a teacher by myself.

I know we can help the teachers when they need it.

School: St. Mary's Academy

i think just as bad about my teachers, i do not like school.

I still think of them the same.

I think their job is harder then I thought. also school is awful and takes up my time.

Now I have more confidence in Mrs. Geddis, and in my partner teacher.

I still feel the same about teachers--some of them are cool sometimes and some of them are nice all the time & vice-versa. \$Elliot Wilson\$

It has not I stil find shcool very boring.

District: Albany Diocese School District

School: St. Mary's Academy

I do not think it changed me at all.

The teachers helped me on the software and hardware. I now know what to do when i use this equipment becuae of my teacher's.

No, I think my teacher are just fine the way they are.

Yes it has becuse now I know that I cooperate well with my teachers. It has changed the way I think about my school because now I know that I have taught them somthing.

Yes it has becuse now I know that I cooperate well with my teachers. It has changed the way I think about my school because now I know that I have taught them somthing.

Genyes has helped me develope a better relationship with my teachers.it has helped my learn more about my school.

they are still the same for me

District: Ashland School District

School: Ashland Middle School

It;s made it more fun being able to work with technology

school rocks...not

I think it may start to get a little more fun.

I learned that school can be fun sometimes. I learned that there are classes you can take at school that help can be fun and educational.

I think school could be more fun and exciting now.

District: Ashland School District

School: Ashland Middle School

I hasn't really changed at all, the teachers do their job, they like it good for them. Students going to school is mandatory so at least try to have fun since your stuck here.

I learned that school can be fun sometimes. I learned that there are classes you can take at school that help can be fun and educational.

I now understand what it is like to teach a class 4 times a day, and what it's like to have then comment on what I'm doing.

I think that in Gen y teachers have a better chance to help then in school.You also learn more.

District: Bellingham School District

School: Shuksan Middle School

I have always liked school, and Gen Y has not changed that.

District: Bering Strait School District

School: Tri Valley School

The way I felt about the school is Ithought in was going to be boring, but when GenY came up it was fun I want to use technology next year.

That a students can learn a lot of things to do with anything they want to do.

I feel good because it was fun with the little kids and using the projector. I liked working with Kari because she is teaching little kids and little kids are easer.

I feel happy about school because they taught me lots of technology.

I feel happy with my partner teacher because the project we did was fun. I learned some new things.

I think that school is funner with technology. The teachers helped us learn new stuff.

District: Bering Strait School District

School: Tri Valley School

yes,technology is awesome, very useful,and pretty smart teachers to teach us.

yes

working as a team was fun experience

It changed me more because I thought school and the teachers was boring because we didn't do projects like these. Now I don't think the teachers and school are boring.

It is good how it is.

What great subjects you could learn.

My gen y teacher was nice to us and i learned lots of stuff.,

My Gen-Y teacher was nice and it was fun.

I feel good about school because I want to learn technology.The teachers are good to us.I will go to school each day.

I feel different about school and teachers because of Gen Y

My experience in Generation www.y changed the way I think or feel about school and the teachers because I feel more confident. and I know about Geny.

District: Bethel School District

School: Spannaway Junior High School

It made me look forward the the period were I got to take this class.

District: Bethel School District

School: Spannaway Junior High School

It makes school a little better because i don't have to keep asking people for help when im using technology.

i've really gotten to know the teachers and i realized they have another life out of school and they're not always annoying people that talk alot.

Gen- Y has changed the way i fell about myself by knowing more about computers

tiouyrkhghjyhjyhjyjhkyuijtuiuoioyiiiuijuytityuiut

well i've found that certain teachers don't like to be taught things about technology because they think that they know everything and there are certain teachers that are greatful to have help.

i haven't any idea

It makes me feel the same, I already had my gen Y teacher previously as a teacher before so it didn't give me a new outlook on my teacher, or my teacher partner.

I feel the same about my teachers they are all good teachers and I appreciate there help.

i no that some teachers are nicer then you think

My experience in Generation www.Y changed the way I feel about teachers because it helped me understand that teachers need and or want to know as much about technology as they can just as much as I can.

No

I think that teachers like these kind of projects and powerpoint projects might also help the students in the classroom.

District: Bethel School District

School: Spanaway Junior High School

we got to relate to the teachers on a different level and found out their pretty cool. We like school even more now that we've been able to have fun and play with technology.

School is still boring, though everyday I look forward to coming to Gen-Y class. And as for my teachers. I find it's easier to talk to them.

District: Bishop Kelly

School: Bishop Kelly High School

When doing my PowerPoint project I became a little frustrated with my partner-teacher. He was very hard to get a hold of. It took a long time to get feedback from him.

My experience in GenY has made me feel that I can help others use technology. I have realized that I can have an affect on my school by teaching others, especially teachers, how to use technology in teaching their classes.

My experience in Generation Y has shown me that teachers know a lot less about computers and technology than I thought.

I think that if more teachers would use this resource in the schools that classes would be more exciting for the students. I would like to see this used more by teachers.

I liked working with the partner teacher and It gave me a good realtionship with them.

It was a unique oppourtunity to be able to work with a teacher as equals, with a common goal.

Generation www.Y has let me know that teachers are trying to bring technology to the classroom and make things more interesting.

It was a good oppurtunity to get to know the teacher.

District: Calloway County School District

School: Calloway County Middle School

I like to help teachers more.

District: Calloway County School District

School: Calloway County Middle School

No, i love school in the first place.

I now understand that what the teachers and administrators do at our school is'nt as easy as I thought it would be. i can now relate to my teachers because I have worked with them and know more about them. I was actually able to teach my teacher someth

I think that the teacher liked having me present and help her with teaching the class.It made her job a little bit easier.

I feel better to know that I can work and get along with my teacher.

District: Caney Valley USD 436

School: Lincoln Memorial Elementary School

no.

I like them better too.

Kind of

it did not change me a bit.

I thought my partner teacher would know more about the programs that we used. But I was wrong.

it did not change me a bit.

No.

It didn't change me any either.

District: Caney Valley USD 436

School: Lincoln Memorial Elementary School

Now that I've worked with teachers i know how hard they actually work.

It gave me more respect for how Teachers plan for their leson.

N/A

District: Cincinnati Public Schools

School: Crest Hills Elementary School

I like school a lot. It is fun to work in GenY. I like working with a teacher to do a lesson with her students. They liked my work. They liked the book. I had fun doing this work. It makes me like to do a lot of hard work in school. I want to help other t

No

i like the teacher to teach because hes a good teacher

it felt fun, because we were learning fun things together.

With this project the teachers were more interest in the project and supportive, that it made me more interest in the project.

my experience has made me closer to my partner teacher, Ms. Revels-Davis.

The teachers to me now are good.i respect them now as a teacher because i had to things they have to do now..I feel that when I am at school doing this the teachers are very helpful and ask me to do and help with the computers.

School: Hughes Center High School

District: Cincinnati Public Schools

School: Hughes Center High School

Yes, I must say that Genesys has changed the way I feel about school and teachers. I have learned how teachers put together lesson plans and how they teach information that they know to people (students) who don't know.

Yes. It has made me more interested in school

I realized how hard it is to be a tech teacher working with technology all the time.

I have a greater respect for teachers because with this program, they can learn more about today's technology and teach that in the classroom more often.

District: Clark County School District

School: Las Vegas High School

I found out that not all teachers are against using technology to help them with their lesson plans.

That some of the teachers actually use the computer and internet than we think.

That teachers need to be more into technology because some teachers don't know how to use some programs.

Yes. Teachers are generally not open to change. Schools are too busy with other things than actual education.

My experience in Generation Y changed the way I feel about school and teachers in a sense that planning a lesson can be hard work. If you don't have the ambition or the drive to complete it, then you will never get it done. I now see school from a new perspective.

I think the teachers are the same. I get along with them well and nothing changed. I enjoyed working with my partner-teacher.

District: Clover Park School District

School: Southgate Elementary School

I preferred to work alone in class rather than in teams because working in teams was sometimes hard for me. Now that I did my project it is easier to work in groups.

District: Clover Park School District

School: Southgate Elementary School

It helps me work better with my teacher and my classmates. We can get more and more assignments done.

I think it hasn't changed the way I think about my parter-teacher. I Knew He had skills on computers.

Gen Y helped me with techers. Teachers had to work really hard to finish these projects and so did we.

I think it changed the way I fell about school and other teachers by seeing howour school has a lot of technology and how other teachers know so much.

My experience with my school and teacher has changed to a better experience since I was in the generation Y. program.

It changed the way I feel by the teachers constantly helping me and also teaching me more about technology.

Not so good to me, some teachers don't listen to you sometimes.

District: Colville School District

School: Colville Junior High School

GenY has made me see that teachers are very busy people. They comitted a lot of time into helping me with my project.

It has change the feeling about school so that now I can make project for my teahers that are better then the other kids. change the way about teachers so in the future all be able to work with other teachers withuot problums.

I feel again more confident in school. I can get on the couter and type and no worry about messing up and ruining their computer. Thus, i feel more confident then ever.

It has not changed the way I think or feel about school or teachers

Better because the teachers in this school actually help us more than the other teachers I have ever had when I need alot of help.

District: Colville School District

School: Colville Junior High School

geny was probably the funnest class i had this semester.

Lol, Good question, but I dont know how to that one class would be able to change my thought on teachers and school. So I dont know if i can answer that.

It made me think some of them need to go to a computer class!!!!

How hard it is for them to make projects for the kids.

Teachers have expectations that may be hard, but must be met.

I have more confidence in the school work that i will have to do on the a comupter for futher school surch. i have alot more computer skills than i did in the begaining of the year.

um... well i don't really think about stuff like this that often. But i think it helped to get to know my partner teacher a little better and i got really used to using powerpoint which was fun.

It made me respect them more and understand the reason why they teach stuff about computers.

It hasntchanged much but i do know that my geny teacher knows alot about computers.

District: Dearborn Heights Sch Dist 7

School: Annapolis Sr. High School

It changed my opinion about how easy it is for teachers to teach a class.

It hasn't changed my opinions about this school and the teachers in this school at all.

Well, teachers are just people so I don't really have a different opinion about them. I just kinda liked how I got along with my teacher.

District: Dearborn Heights Sch Dist 7

School: Annapolis Sr. High School

yes.

Generation Y has not changed the way I feel about my school or the staff. It just made me more aware of who was more competent with new technology.

My experience in Generation Y did not really change the way I think about my school and teachers. But now I do realize on how much work a teacher can go through searching and putting together a power point presentation for a class.

It didn't really change the way I think of school and teachers.

The experience in the Generation www.y class didn't have any effect on how I feel about school and teachers.

Generation Yes has made me realize that teachers are willing to learn from students and work with them regularly.

It made school more fun.

It made me realize that teachers don't know as much as the student think they do.

Feel much better.

It didn't change the way I looked at anything.

It didn't, school is still boring and teachers are still, for the most part, out-of-date.

The experience was interesting, it allowed for me to see what the teachers have to go through to prepare a lesson. Using technology or not, you still have to gather information, prepare the lesson, and make sure the students understand. Above all this exp

District: Dearborn Heights Sch Dist 7

School: Annapolis Sr. High School

I think that school's ideal of this class was forced so strongly. My teacher fails to understand that having the arranged partner-teacher that I had was a bad idea. I think that the education directors should have seen that this class needed more time for

School: Bedford Elementary School

I didn't like Mrs.Eland at first but now she is nicer.

I like school a little bit more when I am in Gen-y-.

Using the the internet it can help you understand your school work.Plus it helps the teachers by making their job easier.

School is the same thing but,I like gen-y a lot more then I thought i would ;).

My experience helped me know that adults need help as much as kids do.

Gen yes makes me think that teachers don't Know everything

I had my partner teacher for 2nd grade but now were even closer.

I DIDN'T REALLY KNOW MS.HEISE BUT NOW SHE IS ONE OF MY FAVORITE TEACHERS

It made standing in front of a group easier for me.

dont know

They are O.k.

District: Dearborn Heights Sch Dist 7

School: Bedford Elementary School

School is better for me and is easier for me now that gen-y ha steached me more things.

I never talked to my partner teacher until my first meeting.

It has not

School: Madison School

Not really. I still feel the same way.

It changed the way I think about teachers because I used to thik the teachers didn't like taeching students but while working with one now I know.

I thing my experience has grew larger because I'm getting better grades.

I now feel better in school that I'm in Gen.y.

I feel a lot better about school now that I know how to use computers and know I'm not doing it wrong.

I like working with my teacher more and describing to her how icons work in different ways.

Yes it has because with me feeling more confident in myself I know I can accomplish any project or assignmentsI get!

It hasn't changed the way I feel about teachers because I still like and respect them.

Yes because I feel good about school because I can use the computer to look up informationand Iknow now that I know stuff that my teacher doesn't.

District: Dearborn Heights Sch Dist 7

School: Madison School

Well, it hasn't really.

It hasn't changed.

It changed nothing.

It changed nothing for me

Not really

I feel different about teachers but not about school.

Yes I had fun. I learned how to use the power-point.

I feel that Mrs. Jenkins made it easy for me to get a hang of Geny and Miss Folkowski gave me a lot of support.

School: Oakley W. Best Middle School

It's changed because you think your teacher knows every thing well think again some need help learning about computers it helps my school to see about what all you can do on-line other than play games.

Yes, not all the teachers are good at everything {like technology} and who ever was a partner-teacher learned lots about technology!!!!

I enjoy working with other people I always have it didn't really change that but my teacher was very nice and helpful like I said before it was very fun.

It really did not change the way I think or feel about school and teachers.

District: Dearborn Heights Sch Dist 7

School: Oakley W. Best Middle School

it changed a bit.

Well, my partner teacher was really cool and I had a good time doing this project. I also think that this is a good and helpful and fun class to take and I thank the school for giving me the opportunity to take this class.

You get to know your partner-teacher better.

it didn't do anything

I don't really know what to say about this but I did learn about the way they are.

It didn't change the way I think or feel about school or teachers.

I got to know the teachers a little better especially Mrs.Lazar and I like the teachers more now.

Well, the teachers in my school are very talented because that was just only 1 powerpoint and that took me about 2months and teachers are creating different types of projects all the time and they can get them done in a day.

i learned that all teachers r old and grouchi

of course

I still feel the same.

School: Pardee Elementary School

It has given me a challenge to working with a teacher.

District: Dearborn Heights Sch Dist 7

School: Pardee Elementary School

Yes, now i like anything that involves Computers and can do a lot of new things.

No, not really.

It didn't.

I think now that some teachers don't know a lot of stuff about computers.

I feel more ready to help the teachers with computer problems.

I feel that it was a good way to help teachers with their students.

I like going to school on Wednesday.I don't think about anything eles diffrently.

Yes. It made me realize that just because teachers are intelligent, it doesn't mean that they don't need help.

yes.I know more stuff about the world

Yes,now I know that they didn't know about techoligy

Yes because i asked people in Mrs. Straley's class and they said she was mean but I know that she is not.

Yes because i asked people in Mrs. Straley's class and they said she was mean but I know that she is not.

District: Dearborn Heights Sch Dist 7

School: Pardee Elementary School

That they can learn from kids too.

I feel really happy because I finally know how hard it is to be a teacher.

School: Polk Elementary School

I think it feels good because your smarter.

Well I think that teachers are nicer to me and ask me to help them in more projects on the computer.

Gen Y changed the way I feel about school and teachers because now I know what teachers have to do to make a project. And I know that it is alot of hard work to make a project for the class.

It makes me feel that teachers need help as well as students. I feel school is more interesting and fun. Teachers can get help from students, to.

Geny has changed the way I fell about my school teachers because I know now a little about how they do thiungs.

I realize that it is not so easy to plan a lesson it is alot of hard work.

I learned that teachers are very organized.

Generation Y changed the way that I think about teachers and students because I know now that it takes a while for teachers to do an informational project and to teach a student it.It is not so easy.

They don't know everything.

District: Denali Boro School Distirct

School: Dublin Elementary School

District: Denali Boro School Distirct

School: Dublin Elementary School

I learned the teachers in my school erally want to change their curriculum for the betterment of their students, they were up for every suggestion that I had to try in class.

It hasnt changed me opinion about school or teacher in any way.

I'm not sure.

I leanred that they actually know less about technology then I had thought.

I feel that students are more open to learn than I thought, and that teachers are very open as well to new teaching ideas.

I am glad I am not a teacher.

Teachers are excited to learn new and important skills and even more eager to teach them to their students.

I have come to appreciate the effort teachers have to put into their lesson plans in order to teach successfully.

District: Derby Unified School District 260

School: Derby Middle School

Not really, but I have gotten to know my teacher a little better and I enjoyed doing the project.

Teachers are busy and don't really have time for this.

I like them better!

i know enjoy using the computer at school a little more now that i know to use it better.

District: Derby Unified School District 260

School: Derby Middle School

I still think my teachers are sometimes mean and sometimes nice it depends on the teachers. the subject is always different and I feel different about everything and every subject.

I now enjoy the fact that the school benifited from my project and the teachers in the future will like my presentation.

District: Drummond Area SD

School: Drummond Elementary School

Didn't really change anything for me.

n/a

Good

nothing

I feel like I now them better.

It has changed some. I learned how hard teachers work.

Good

i learnd that teachers need teaching to and just not us as well

It helped a lot because we got to do really fun stuff that we normally don't do in school.

I think it is more interesting.

District: Drummond Area SD

School: Drummond Elementary School

I still think about school the same way that I thought about it before. It told me that the teachers were learning right along with me.

District: Dublin Unified School District

School: Nielson Elementary School

Now I no that I can learn things from programs such as this one. I feel the teachers, and students at Nielsen are very fortunate to have advanced technology to teach, and learn less complicatedly. Gen Y has been a blast!!!

I am more confident using computers and sharing that knowledge with others, including teachers.

I like it alot because I have something to look up to at school.

I think school projects and essays that I can do on the computer are fun and easy to do. I also think that projects are exciting! --Danielle and Alicia

It makes me feel good at home, because I could now figure out the trouble-shooting, and other stuff with my computer.

It has changed me by showing that I can do a lot of different things on the computer.

It has changed my feelings about school alot. Now when I go home, I won't be saying "DAD THE COMPUTER IS BROKEN OR FROZEN" because now I have learned how to solve those problems. I also know how to do alot more technology because of Gen Y.

It changed because I know how to work with a teacher better and they know how to work with me. Also I have the ability to talk to teachers more confidently.

I feel the same. I still like my school and my teacher alot.

School: Wells Middle School

i don't know

District: Dublin Unified School District

School: Wells Middle School

I thought I could teach teachers about technology, etc.

It changed by alot. I actually like school now before I hated school.

Well I feel safer going to school knowing that teachers do do work after school to help you succeed in my school career.

It also changed the way I think about my self. It made me think school was a lot more funner than it really looks like. It dramatically changed the way I thought about my teacher. I learned that my teacher was not a mean un-loving person but, really a lov

Easier to deal with.(school)Not changed about teachers.

District: Ell-Saline Unified School District 307

School: El Saline High School

I understand more about the work it takes to teach a class and I respect that.

i feel better causa now i know more bout them and how to adress myself.

I feel I can communicate better with all the different teachers in my school.

It hasn't changed at all.

I have a better relationship with my partner-teacher and find it easier to work with her in class now.

District: Ferndale School District

School: Ferndale High School

Yes, I like school a lot better.

District: Ferndale School District

School: Ferndale High School

This experience has been great! I feel like when I become a teacher, I will definitely incorporate projects where students can become teachers and teachers can be students!

Because there was very little work for us, it taught me that teaching needs to be incredibly organized. I feel that, at least, our project was not. Teachers need to have it together, have a back up plan. We didn't, so there was never anything for us to

I think teachers are starting to look for ways to make their subjects more interesting and help students retain information.

It has allowed me to get to know teachers and helped me to enjoy school more.

My feelings haven't changed during the semester.

I now never want to be a teacher because I have seen how frustrating teaching a class is

learning goes both ways

I now realise how boring teaching is. When I did my presentation, I worked on the same thing for 6 periods. Although the presentation was good, it got dull for me and my partner-teacher toward the end.

It hasn't. They're still good.

It hasn't really changed my perception of the school or its teachers. however, I do have a lot more respect for the teachers that are able to create there own web pages because it is not easy.

I realize they're easy to work with because they're just normal people too.

I feel that our school is always looking for new ways to catch the intrress of all of the students. With working with my teachers I got to see what really crazy lifes they live and I don't understand how they can come to class everyday with a smile on thei

District: Ferndale School District

School: Ferndale High School

Coming to school is now a new opportunity to learn more; not only about technology, but about everything. I understand better the dilemma of a teacher to integrate technology into the classroom without their lesson plan getting forgotten.

I feel like I am able to accomplish many things that teachers set in front of me. I have become very close to two of my teachers. My Gen.Y teacher and my partner teacher. I feel like I am more respected by both of them

I realise that some teachers do know about technology, but not enough of them.

I now know that most of the teachers in my school know almost nothing about Macintosh computers and that some of the commands that one might use on a IBM compatible computer are transferrable in most programs. All they would need is a training day and mo

It helped me understand in what ways teachers are will to help and be acceptable to new ideas or material.

Teachers can be very flexible when it comes to an individual student project. I also like how this school can have such a variety of different levels and types of classes.

It gives me a better understanding of what the teachers have to go through in order to prepare an interesting class for the day. I definitely respect the teachers more when they put together a really interesting class

I think I understand their point of view more clearly.

District: Grandview School District

School: A.H. Smith Elementary School

I could know show some students about computers.

I use to think school was boring but then I joined Gen.Y and then when we did more things in Gen.Y I got to learn how to do a PowerPoint.

Yes, because my teacher knew my friend and I would finish our project by when she told us.

It made me feel about they need my help on the computer.

District: Grandview School District

School: A.H. Smith Elementary School

It changed me from feeling ambarassed and standing in front an other class.

It hasn't changed because every thing stayed the same. I learned how teacher feel when they teach the class.

I used to think school was boring .But when I joined Genwhy I knew it wasn"t boring anymore because I knew I learned alot about computers!I felt that teachers were mean.But then I started to got to know them and they were really nice!

Yes, because my teacher counted on me and my friend to to finish her project and we finally finished and she was proud of us. In school it didn't change much some days we would meet her to talk to her about things she wanted in her project.

It made me feel thatI can succeed through more problems in life.

I feel happy school and teachers because they get to teach it to their other 4 graders or 5 graders.

It was cool getting to be the teacher. I liked working with Miss Cornwall.

It changed because I know how a teacher feels now.

I leraned that teachers do not know everyting about technology.

District: Hartford Central School District

School: Hartford Central

I think Ican help then now if they need help.

No Generation Y has not changed the way I think or feel about school.

It maks school seem fun.

District: Hartford Central School District

School: Hartford Central

I have more respect for teachers

I feel that I know more technology than some teachers and that I can help them if they need it.

Working with my partner-teacher to complete my final project made me realize that students can teach the teachers as good as the teachers can help the students. It also taught me that sometimes the teachers rely on the students to help them with certain

I feel that school and teachers are very important and I still feel that way.

It changed the way that I feel about school because it made me want to come to school, but I don't really feel any different about most of the teachers.

District: Hayward Community School District

School: Hayward Intern. School

It makes me feel that I could depend on them more than I used to.

I'm a little bored because I stay in school longer and I can't play with my friends.

No, my teacher acts the same so do the students in my class.

I think that the way I think about the teachers has improved, but I am not so sure that the way I think about school has improved.

I am a little bored off our school because we have been around it more, but I have got to know more about my computer teacher and she is nice.

I feel that I can help more teachers with technology.

It hasn't.

District: **Hayward Community School District**

School: **Hayward Intern. School**

I feel better about the teachers learning new things. I feel better about the school because with technology students hopefully will learn better.

I feel like I want to do more projects with teachers and made me feel more confident.

I think I understand more about teachers and what they do with computers.

Gen Y really hasn't changed the way I think about school or teachers. I always like school and all my teachers.

District: **Herndon School USD 317**

School: **Herndon**

School feels more enjoyable and I'm more able to work with teachers now.

Now I know how hard it is to be a teacher.

Most teachers don't know how to use technology!

That teachers need help from students to teach and the school is farther advanced in tech. than I thought.

I still feel the same way i beleive that the teachers do need to find new ways of presenting materials to their classes. hopefully this project will help them a little bit to acomplish this goal.

District: **Hill City Unified School District 281**

School: **Longfellow Middle School**

It did not change the way I feel about the teachers.

I think I have enjoyed school more this semester than any other semester because I had so much fun in Gen Y.

District: Hill City Unified School District 281

School: Longfellow Middle School

I learned that you have to make time with the teachers you work with and it can be hard.

I think that with Gen-Y my teachers have a little more trust in what we do on the computer and I like coming to school to type.

My project has changed the way I feel about my 5th grade teacher because she seems a lot nicer now that i'm older

Since I spent more time with my partner teacher, I now know him better.

I feel pretty much the same. But I do respect them more.

I now know how teachers feel when their students learn something that they taught them.

I guess it made my teacher feel proud because it helped the other students learn about our project.

He has taught me a lot.

I have learned that teaching can be fun with technology.

I respect the teachers more.

Its fun and u get to help them and they get to help you.

No it didnt change the way i feel about scool or teachers.

District: Hill City Unified School District 281

School: Longfellow Middle School

It hasn't

Well it put me closer to my partner-teacher, and put more info in to my brain on technology.

Since I spent a lot of time with him, I got to know him better.

I can understand better how hard it is for teachers to find projects on the computer because you always get into the wrong Web Page.

Well it did not change noting it is just a nother class but one thing is that genyes is better than math.

It has changed my feeling because i can work with teachers and students.

I think it brought me closer to my partner teacher and my Gen-Y teacher.

That they can be more helpful than they appear. I have learned even more about the school because my project was over the school.

It makes them seem less imposing or mean. It helped me to feel more comfortable talking to adults.

It has made me think teachers don't know everything.

That teaching can be fun.

I am now more openminded and I can talk more to my teachers about what I think that might help the project.

District: Hill City Unified School District 281

School: Longfellow Middle School

I think it made school a bit esier. I feel that I had a lot of fun in this class.

i know that i can work with teachers

Gen Y has made me feel that school can be fun.

I have a better feeling about my school and teachers. When I was doing my project, I had to talk more to my partner teacher. That makes me feel good to know that I can get along with my partner teacher. Since I am in Gen Y, I could help teachers in our sc

The teachers were helpful. When I wanted to work on my project they let me.

Generation Y changed the way I feel about the teachers. Like, when ever I needed to work on my project or needed to meet with my partner teacher, they were willing to let me go.

It hasn't, really, except for the fact that I thought that since the teacher was in contol of me, I thought that she would take advantage of that and make my partner teacher and I do all of the hard work, but she didn't.

No

I know that I can work with teachers.

District: Hudson Falls School District

School: Hudson Falls Middle School

it hasn't

This experience has changed the way think and or feel about my teachers and the school that I am currently attending. I have become more confident about working with my teachers and know that I can make a difference in my school.

It didn't change my thinking.

District: Hudson Falls School District

School: Hudson Falls Middle School

My experience here has made me learn more about them, and i like them more.

District: Hurley School District

School: Hurley High School

I feel better about doing projects with teachers.

I feel better about doing projects with teachers.

District: Indian Lake Central School District

School: Indian Lake Central

With the help of my freind nick, i was able to drive my new car and race with the matchbox wheelers. I think that this experience with gen y has changed my life, and my private parts. I feel that this is good for people that like white bed sheets and bro

there is no change

if we had to create webpages all day long, i would have no problem with school at all, i think that this was very fun, and the subject of our project kept me interested.

District: Kent School District

School: Sunrise Elementary School

Yes, i've learned why teachers need an answer book.

Befor i used to not look forward to mondays because it meant a new week of school but once Geny started I started looking forward to mondays.

My experience has made me think that school will help me in the future, and it's fun. Now the way I look at teachers is that they don't know everything, but with someone else's help they can get pretty close.

I realized how much work teachers have to do, and think that they are EXTREMELY under-paid.

District: Kent School District

School: Sunrise Elementary School

It was fun staying after school and doing geny.

www.y changed the way I feel about school and teachers is I can help teachers.

That I can do stuff t help other poeple on computers or any other thing .

Generation www.Y has shown me how much tecnology my school and teachers have.

I feel great and proud of my school. I feel I taught my partner teacher a lot.

I feel that if teachers are willing to be taught, then even if you are their students, they will learn skills. If they are reluctant, than things won't turn out right.

No.

It hasn't really changed anything about my school life. What I feel about teachers is this. I feel that you have fun with them but at the same time teach them stuff.

When i am at school I know that I know how to do things so I am not worried that I will not know what to do.

It hasn't.

It made me feel good to know that i could help teachers and students at my school. And now everyone asks me for help!

My experience at Generation www.Y changed the way I feel about school and teacher by making my happy to go to school.

District: Lake Washington Public Schools

School: Inglewood Junior High School

District: Lake Washington Public Schools

School: Inglewood Junior High School

Yes it has. It has made me feel that teachers need a lot of help in order to be able to give entertaining lessons for their students.

I also know that the teachers admit that they do need help and that they take advantage of the help that is offered to them.

Don't know

I see now that students dont really have a chance to help because teachers dont want any help.

i think now that i have a better approach and relationship with my teacher.

it hasnt really changed anything. imean all of my teachers are nice and all but there are some days when they are having a bad day and the class isnt really as fun as it could be.

I know they are not completely lost in the way of computer technology.

Some teachers actually do know a lot about technology, and I feel that the school is doing the right thing to try to integrate new ideas.

It didn't change the way I think about other teachers.

not at all. This has taught me a lesson though. As the ancien Chinese proverb says, Man who stand on toliet is high on pot. Dont do drugs kids.

I think my school is technology inadvanced. I feel that I know a whole lot more than people let on.

it hasnt changed anything.

School: Rose Hill Junior High School

District: Lake Washington Public Schools

School: Rose Hill Junior High School

It hasn't changed the way I think or feel about my teachers or school.

I don't really think much different.

I feel like school and teachers learn from the kids that teach them how to use different computer programs.

I have never done these things before. I thought it was good experience working with teachers for school.

It hasn't

District: Maple School District

School: Northwestern Middle School

Not a lot but I can say one thing you have to make it fun for the kids and teachers.

I think that teachers are eager to learn a "second language" like computers and liked to help!

I feel that school and teachers have a lot to think about to put one lesson plan together and how they do it every night is amazing. I respect the teachers a lot more knowing the trouble they go through to teach us.

I feel like I am able to communicate better with at least 2 of my teachers and I am able to do better in school, because I know more about computers. I have had a great experience with games and I hope to go on to the next level.

I believe even though they are the teachers, they still have room to experience new things and learn more.

That some teachers don't really know a whole lot about technology and it boosts my self-esteem to know that I'm smarter than some teachers.

District: Marion Unified School District 408

School: TEEN Consortium

District: Marion Unified School District 408

School: TEEN Consortium

I learned that alot of teachers in my school are use to using computers, while a few don't know that much about using a computer.

It makes me feel like the technology equipment our school has isn't bad but we could get more and updated stuff. I think generally most of the teachers know how to run all the programs and others, but some of them don't.

I found out that a lot of teachers in are school dont know how to do stuff on the computer. So I can help them to figure out the problem that they have.

District: Mellen School District

School: Mellen School

I don't think it has changed the way I think or feel about school or teachers.

It changed the way i thought about the teachers because i llurned how much work is involved in teaching.

I am starting to think that some teachers may be interested in what students think could help them learn, now more than ever.

Teachers are cool, School bores me now that its almost done.... tired of this place, Gen y didnt change me that much in this area either

I feel the same way about school and the teachers.

District: Milken Community Schools

School: Milken Community High School

It has not.

hi

District: Millard Public Schools

School: Millard South High School

District: Millard Public Schools

School: Millard South High School

I feel very much the same. I do not think one class of one semester will change what I have been seeing for 4 years.

District: Minerva Central

School: Minerva Central

It has not.

It didn't really.

I feel the same about the teachers because they are always nice to us kids.

I liked some teachers and parts of school then and i like some teachers and parts of school now.

It hasn't helped me at all.

I feel that I can work better with teachers.

District: Newton USD 373

School: Santa Fe Middle School

I feel more respect for my school teachers because it takes a lot of time to come up with a lesson plan and a longer time to make the plan ready to teach to the class.

I know how the teachers feel when they want the class to be quiet and they don't listen.

It has not changed the way that I feel about school but as I said it has given me another prospective of the teachers that have little or not any computer skills BUT it was fun to help teachers that had no clue how to do the simplest of things.

It has not changed the way that I feel about school but as I said it has given me another prospective of the teachers that have little or not any computer skills BUT it was fun to help teachers that had no clue how to do the simplest of things.

District: **Newton USD 373**

School: **Santa Fe Middle School**

It hasn't really changed much. Everybody pretty much stayed the same.

The way Gen Y has changed my point of view of school and teachers has made me realize how frustrating it can be to teach students new things that takes them awhile to learn.

Hasn't

Hasn't

I think they might be more open to computer realated projects, using computers more to teach different things in their classrooms.

It makes me feel that I can do well in school also and fun because I know a little bit more then a few of my teachers.

No, not really.

It's a lot harder than it looks

District: **North Thurston School District**

School: **Meadows Elementary School**

It changed how I think about the teacheres by letting me know them more.

My experience in Generation www.Y made me feel good about school.

I feel better about what I can do

I feel that my school is a very lucky school with all of the great teacher.

District: North Thurston School District

School: Meadows Elementary School

I feel that my school and teachers work well with each other.

My experience has made me feel that teachers don't always know everything and sometimes they need help.

It hasn't changed.

It has changed the way I think, because teachers are smarter than the kids, but with Gen-Y they are the ones who are learning from students.

Generation Y has made me feel so lucky that I can be in a wonderful school, with wonderful teachers who teach and learn, and have fun learning it.

District: North Warren School District

School: North Warren Central

I feel that the teachers can trust students more.

This change the way i think of teachers because i now know what it feels like to have to get something done on time.

Yes, i feel that they are not all strict, they can be fun, too.

I feel more comfortable and helpful when I talk to or work with a teacher

NO!

I think that teachers are fun and interesting/

District: Northwood School District

School: Northwood School

District: Northwood School District

School: Northwood School

I realize more now what teachers have to deal with on a daily basis from their supervisors

District: Oak Harbor School District

School: North Whidby Middle School

good

Yes

that they cant have every thing perfect all the time.

I feel that the school thinks they can't give us enough education so they do things in the morning and after school.Same with some teachers, they all tough me education and helped me understand what I didn't understand.

It hasn't really changed me at all.

yes because now I see that teachers can be really helpful and can become you'r friend.

It has changed a lot.

I understand more about teaching curriculum and how to use it.

It has improved my respect for learning greatly.

GenY has changed the way I feel about my teachers and school by teaching me more about computers so I can be there if anyone needs helps.

Gen Y did not Change how I feel about school at all.

District: Oak Harbor School District

School: North Whidby Middle School

My feelings are the same about the teachers and will never change.

Now I know teachers are every busy people i thought they only taught but now I know how early they come and how much work they put into helping students.

I feel that the teachers are no longer affraid to get involed in the students life, and help us succeed.

NOw i am not ssscared to be in middle school because i got to meet with the teachers and get to know them better. And when I helped ohter students on their project I got to know them alot better too, so I kinda think middle school is ok and fun!!!

It has made me think that this school is really awesome because it lets it's students have the oppportunity to be a part of GenY.

I feel good about them.

The experience in Generation www.Y changed the way I think and feel about my school and teachers because now I know my teachers a little better.

District: Olympia School District

School: Boston Harabor Elementary School

Well I feal the same.

I have always thought that the teachers and our school has been great!

beter

It hasn't.

It has changed the way I think about how hard teachers work.

District: Olympia School District

School: Boston Harbor Elementary School

it toughht me how to do graghing

I personaly I dont think so.

School: Jefferson Middle School

That most teachers are nice and depend on you for a quality project.

no

?????

It feels great.. learning new things that you already dont know. It feels great in Middle School i thought i would think i would get make fun of.. or like dont know where my classes are.. but that never happen! I love Middle School and my teacher is nice

That they need to play with the computer a little more.

I think that I really got to know my partner-teacher better because the assignment that I had to do really brought us together.

I think ALL teachers should go through this program. To make a good thing, I am glad I know skills now that theachers dont know, but I still think they should be educated in these skills.

My expience in Generation www.Y has changed the way that I think or feel about school and teachers by showing me how hard everyone works.

It has changed my way of thinking by, seeing what its like to be a teacher and haveing something done by this time or that time.

I'm not sure.

District: Olympia School District

School: Jefferson Middle School

no

It help other kids with problems they don't get or not really good at and it help them get better at it.

I now feel that teachers are good partners to work with.

It didnt change my thought about the teacher.

My Gen www.Y teacher has been really helpful to me, and school has been great. My grades are little bit higher this time.

It really has not.

my feelings toward school hasn't changed. I do think of teachers now with more respect for what they do.

it makes me feel like my teachers can help me when I need help

Not really, I met some new people but most of the teachers I already knew.

School: L.P. Brown Elementary School

I think that this year has helped my stand up if teachers need help. I have solved very many problems with the technolgy skills I have learned throughout the year. I have also helped many other students with some of their work.

I always thought they were doing a good cose,I stil do.

Yes

District: Olympia School District

School: L.P. Brown Elementary School

Generation www.Y has changed the way I feel about teachers. I learned how much work it is to be a teacher.

I think that I feel the way I have always felt about school, but now I think it is more fun because my teachers and everyone know I have the ability to be able to solve problems and use other hardware pieces that they usually wouldn't allow other students

I have been focusing more with computer rather than day dreaming

No

I don't know.

Well I feel that I can Teach someone else what I learned!

School: McKinney Elementary School

I like school and teachers just the same.

I enjoy school and now I like it even more.

It changed the way I feel about the teachers because I didn't think teachers came as late as I thought before I started coming to Gen Y. Now when I come to Gen Y I come to school before my own teacher.

Good because they know that I can help them with trouble shooting.

I feel good that I was able to give back to the teachers that have been teaching our school for many years.

I feel more equal to the teachers.

District: Olympia School District

School: McKinnev Elementary School

It helps me trust the teachers when I need help and I already knew that my school was a great place but now I really feel it.

I think it helped a lot and i think i am becoming a beter person and it hlped me learn a lot so I think beter in the class room and I can help ohter students I love Gen Y I will probly do it agin.

I think I will be able to help teachers more, and now that I know a lot of good sites to go to on the internet, I think school projects will be a lot easier.

No My experince in Gen www.Y didn't change the way I think about teachers.

Gen www.Y changed the way I think about school and teachers because I had a chance to be the teacher and learn somthing a lot of people in my school don't know.

Not really.

Now I can help teachers a lot, and sometimes when I don't understand things, I can go on the Internet to get help.

I think the way it has changed the way I feel about school is that I can do more stuff on the computer inside school and even outside school. I think that Generation www.Y is a really fun way to learn technology!!!!!!

School: McLane Elementary School

I think Gen www.y changed the way I think about teachers, because usually teachers teach us, and we taught them.

It makes me feel that teachers work really hard because they wake up really early just for us!!!!

I feel great about the school now that I know more about cumputers and teachers.

I have never taught a teacher before and I liked it.

District: Olympia School District

School: McLane Elementary School

I feel I can help A teacher if they are having trouble with A computer.

It has made me think that teachers can be taught by children, not just teachers teaching children.

I think it hasn't changed my view since I always liked school, even before Gen www.Y. I suppose we switched places; I taught the teacher instead of the teacher teaching me!

I don't think it changes anything.

School: Pioneer Elementary School

No, because I think that just this class would change my way of what I think of my school or teacher they don't really have any thing to do with this class.

My feelings have not changed in any way.

I have gotten a lot more close to Mrs. Baker than I thought I would. I have a lot more to do on the computers now that I have been in Gen www.Y

Makes me feel that if you set a time to meet with somebody they will get mad if you don't show up.

My teacher was frustrated when we didn't show up at our meetings.

School: Roosevelt Elementary School - Olympia

The teachers at my school are very helpful to me and all the others.

Generation www.y changed the way I feel about the teachers by letting me work with them. I feel like they appreciate me being at Gen Y.

I think that computers are very important to learn about because you can make things that are important.

District: Olympia School District

School: Roosevelt Elementary School - Olympia

I think they're great to learn new project for a great school.

It hasn't

They still can teach them

Yes, it has changed the way i feel but not thinking.

im more confedent about telling teachers about tecnology

Well It got me to know the teachers better and inter active with them better than before I starded Gen Y

District: Othello School District

School: McFarland Junior High School

Yes it made me realize that gen-Y is a cheap way for the school to save money so they dont have to higher computer techs. And that the teachers should already have training in computer technology.

Yes, now that i was in Gen Y i know that teachers are really smart

I feel more confident around teachers.

GenY changed the way i feel about school and teachers by me helping the teacher with a project he or she gave me.

I think our school is behind in technology and the teachers should do more on computers.

This program has made me feel like i know the teachers in Othello a lot better now because of the projects i did with them. It helped me learn how to work with a teacher and to do a project with them.

District: Othello School District

School: McFarland Junior High School

I think that I got closer to some of the teachers. It also helped me understand the particular area I was working on for my teacher.

It changed the way i think about school and teachers because now I think that teachers need more help in computers and things like that and the students are smarter than they are because they know how to do more with computers than the teachers do.

i feel great about teachers because i got to know more about them although i have been with them for two years. school teachers are very polite to me and they i can get along with all the teachers here at McFarland Jr. High.

It hasn't changed the way I feel about teachers

Yes, it made me feel that I was helping them out with their lessons.

From taking Generation Y I feel like I can relate more with the teachers and work with them easier then before.

District: Park Falls School District

School: Lincoln Jr. High School (Park Falls)

I know that teachers are here to help me to succeed in anything I ask them to help me with. I am lucky to have such a wonderful teaching staff at my school.

I feel sorry for my teachers because they don't all know how to use technology like our younger generation. I'm glad that I got to help my teachers learn more about technology.

It hasn't changed very much.

I have learned how to communicate with them more easily.

I got to know my partner teacher better. she's cool to work with.

it made me more excited about school, but i've always liked junior high.

District: Park Falls School District

School: Lincoln Jr. High School (Park Falls)

I like school and the teachers are cool.

My experience in Gen Y has not changed the way I think or feel about school and teachers.

District: Phillips School District

School: Phillins Middle School

I like working with the teachers

No, not really.

not much.

District: Plainfield School District

School: Plainfield High School

I really thought my teacher would have better things to do then come help me out on one of my projects for my grade but it turned out that she was really happy that I chose her to help me out.

It made me think that teachers are willing to prepare lessons that are appealing and interesting to their students.

It made me think how hard it is for teachers to make and present lesson plans.

Gen Y really changed my views on teachers. Now I understand how hard it is to create an exciting lesson plan. I also learned that teachers really care about what we think about projects. They really want it to be interesting and I respect them a lot mo

WHEN I COME TO SCHOOL, THE ONLY CLASS I REALLY WANT TO COME TO IS GEN Y CLASS. THE CLASS IS HELPFUL AND YOU CAN LEARN A LOT FROM IT.

Our Gen Y teacher was real good. She helped us out alot and even brought in some of her personal belongings to help improve the class.

District: Plainfield School District

School: Plainfield High School

I have the same opinions about the teachers but I feel more capable of understanding school based lesson plans.

I really feel the same way towards teachers. Some really do care like our instructor for this course but many of the others think about themselves saying, "I got mine" referring to their degrees and diploma from High School. My partner teacher and I have

District: Plymouth Christian Youth Center

School: Plymouth Christian Center

it didn't change it

That it's kind of hard to pick things for the kids to do in class.

District: Prince George's County Schools

School: High Point High School

It has made me feel like it will take alot more effort to get to some of the old afshion teachers.

Upon the completion of this course I viewed my school teachers in a new light, I saw how dedicated they were to teaching their students, during school and even afterwards.

School: Largo High School

Veyr nice. They show that they can intergrate technology into there everyday subjects.

I've learned a lot about this school, and about my teachers, being that I came here in the middle of the year, and everyone embraced me as if I was here the whole year. This year is one I'll treasure for years to come.

District: Private School (WA)

School: St. Michaels School

It didn't really change the way I think about the school or teachers. It was just fun playing with tecnology.

District: Private School (WA)

School: St. Michaels School

I feel like the teachers know more than they did.

They can be very helpful when they are working with you as a team.

That its useless

It makes me think that by taking even just one extra class in school it can open your mind and help you learn a lot more. I also think that teachers really help their students to learn a lot.

I feel more thankful that I know them because they are more willing to help me.

It has changed the way i feel about my school and teachers because i feel like i have helped my partner teacher learn about and use technology.

It hasn't reall changed. I have made some new teacher friends but other then that i feel and think the same.

I now know that the teachers need more computer knowledge and hope next years students will help them a little further down that path.

They are still learning too.

District: Private Schools (St. Thomas/St. John)

School: Moravian Schools

Don't know

It is good They are good

Generation www.y has not changed my opinion on my teachers and school.

District: Private Schools (St. Thomas/St. John)

School: Moravian Schools

No, I still hate them

Like before it has not changed the way I feel about school and teachers.

School: Prophecy Elementary School

I liked it especially my student teacher

It has made me feel good about teachers

The GenYEs teachers were pretty nice and they really helped a lot they let us figure out a lot of the problems we were having just by talking to us and letting us think of solutions.

it makes me value the help and opinion of my teachers

I think things are not fun.

it makes me value the help and opinion of my teachers

It has made me feel good about teachers

it makes me value the help and opinion of my teachers

not much

School: Sts. Peter & Paul High School

I show more respect and gratitude for school and my teachers.

District: Private Schools (St. Thomas/St. John)

School: Sts. Peter & Paul High School

I enjoyed this learning experience. Working with my Gen Y teacher was a great experience, I hope to do it again. This would work great with other students.

District: Queensbury Union FreeSchool District

School: Queensbury Middle School

It has changed it because I now know that teachers can teach a class as well as students. I also learned that teaching is a very hard thing to do and is not as easy as it looks.

It has changed the way I think about teachers by showing me how respectful teachers are and how they will always try to make room for you and make things as easy as possible for you.

Generation www.Y changed the way I think about school and teachers. I have learned that the teachers in my school are very nice and always listen to your ideas.

I relized how much tenology they really had.

Generation www.Y has changed the way I think and feel about my school and teachers. I know now that I can teach other teachers how much I know about computers. I can also help my friends become as computer literate as I am.

It has not changed my views greatly.

My experience in Gen Y changed the way I think and feel about school and teachers because now I know that I can talk to teachers about technology and I am very sure of myself.

My Generation www.Y experiance, and my mother's computer lab job, has showed me, som teachers relly need to get more involved in the technology of today.

District: Renwick USD 267

School: Andale Middle School

I feel the teachers have also learnd alot too.

I learned that teachers have alot more extra activites and that some of them really want to spend time with us. The school has been a great help with getting us new equipment and helping us learn it all. They were all very patient with us!

District: Renwick USD 267

School: Andale Middle School

I have learned that teaching isn't as easy as it looks. Sometimes school is kind of boring but when I saw it from the teachers point of view I found out it really wasn't.

I will be able to talk to them if I have a problem!

Nothing really

I have come to respect them a lot more. Some people think they are just mean. I think they have tough jobs so they have to be tough, not mean.

It changed the way I look at the school because I know that their people here to look up to, and ask for help if I need. Know that helped me because I didn't have to know every thing.

It has changed the way I think or feel about school and teachers because now I know that teachers have a lot of things to do and learn.

It lets me know that teachers work harder than it seems because on a project the teacher has to look up every thing then give the assignment. School seems easier.

I know that teaching seems easy but it is harder than it looks.

District: Ritenour SD

School: Hoech Middle School

I feel a lot more comfortable with teaching and I have learned what a teacher does. I have more respect for my teachers.

I know how much work they have to do for a single lesson now.

I don't know and don't care

don't know

District: Ritenour SD

School: Hoech Middle School

It is hard to create a lesson plan.

I think that this program made me realize that there are some teachers that are willing to learn from their students or former students.

It showed me that teachers also need to learn in school.

Don't know

District: Seattle School District

School: Asa Mercer Middle School

I feel that some can now integrate technology into their assignments/projects and help other kids too.

I feel now that sometimes teachers need help too and that a student can do a lot to help them.

Yes it has.

I got to understand them more.

It hasn't changed me much since day 1 of this class.

I feel that I can count on that I can use a computer and do some of my work, help me use the net and find info. on a project or something.

I still feel the same way for the teachers and the school too.

I think they help me what to do but basically they help me.

District: Seattle School District

School: Asa Mercer Middle School

Generation www. Y has changed teh way I think about teachers. Since I always use to think that every teacher knew how to use microsoft PowerPoint.

District: Solon Springs School District

School: Solon Springs School

I have more respect for the organized teachers because I know that it takes a lot of time to prepare lessons, ect...

It shows me programs like this really do help teachers and younger students who don't know what they are doing on a computer.

Not much. I now know that school could be alot more fun, but until this program makes a bigger impact, it's not gonna happen.

I knew some didn't know how to use technology very well, and some did. I had a partner-teacher who did know about technology.

It did not.

It made her life easyer

District: South Brown County 430

School: Everest Middle School

It has tought me that a teacher can pick a hard subject that is fun but hard to finish.

It made me feel more confined in what is assinged to me and how to lisen and learn.

Yes, I feel smarter about myself. Just before I took this class I told or said that I was so stupid.

I think that the whole school should be able to take this class because they will learn alot in this class Mr. Clay is a good teacher he taught everthing that we needed to know about geny and thanks to him I learned more and I think It would be an good ex

District: South Brown County 430

School: Everest Middle School

I know now what they do to prepare a lesson

The experienced the way i think and feel about school and the teacher is that this School has alot of fun things to do and see in Technology..

It has not changed anything.

My feelings about school are still the same and I can't really like school all that much.

I used to think that teachers had lesson plans that were already made out for them, but now I know that they make their own lesson plans.

It let me know that teachers like students help and ideas of ways to teach classes.

I think that they have to do alot, and they have to not be very shy because they have to stand up in front of the hole class every day, and I just had to do it once.

I was able to work with a teacher in a way that I never have.

This class hasn't changed the way I feel about school or teachers. I still think that some classes are boring, and some are cool. The teachers are all alright too.

no

It has made me feel good because instead of working with students we work with teachers.

District: South Kitsap School District

School: Cedar Heights Junior High School

'bout the same

no

Just the same.

has not changed

Bad, I was not very happy with my choice of classes. I thought that it was going to be something that it wasn't.

it has changed the way that i think about school but not the teacher

It showed me how and what teachers expect in group projects.

It changed the way I fell about my teachers because I now know that there are those really strict teachers out there.

I have realized that students aren't necessarily less intellegent then teachers.

this class is fun and i like doing it

Nothing much.

It didn't really make me think or feel differently about school. It made me change the way I thought about teachers by making me think and relize how much they have to work and deal with their students.

District: South Kitsap School District

School: Cedar Heights Junior High School

It has made school fun.

District: St. Thomas/St. John School District

School: Ivana Eudora Kean High School

I feel the same about my school and my teachers. I have always known that my teachers are very cooperative and willing to work with the students. They love to learn new things especially when students teach them these new things.

Gen Y has changed the way I think and feel about school and teachers tremendously. By working one on one with my teacher, I learned that can be nice and are willing to learn from students and that you must keep your appointments to meet with them or they

This class has made me come to realize that not all the time teachers "know it all"

My experience has not change the way that I feel about any teacher.

My experience in Generation www.Y has not changed the way I feel about teachers or the way I feel about the school.

My experience changed the way i feel about teachers because when I made the decision about my project there was only one teacher in the school that really thought the subject and really had time to help my whole attitude changed.

I now see that my teachers are willing to change there teaching styles.

It hasn't really changed my view on teachers or school.

District: Triplains USD 275

School: Triplains USD 275

My partner teacher was demanding and had high expectations of my project. She worked the Christmas program around my presentation of Christmas Around the World. This meant that my presentation had to be informative as well as presentable to the public.

Some what it feel that school has become more important to me right now and the rest of my high school career.

District: Triplains USD 275

School: Triplains USD 275

It has helped me look forward to computer classes because I know more about computers now.

District: USD 405 Lyons

School: Lyons Middle School

In a way I feel like I can talk to them like a friend not like a stranger.

I think I like school better knowing that I did something for it, and I hope kids like my project.

GenY is a good team activity and you get to work with other teachers. Mrs. Nichols was a fun teacher to work with and so was Mr. Simpson. (our partner-teacher)

I have more respect for teachers, especially computers teachers because now I know that they work a lot harder than most people think.

I feel that if other students or other teachers have a question about technology I could give them the answers.

It has made me feel better about talking to teachers.

Yes now I know that the students can teach the teachers

Yes, I now feel more comfortable talking to my teachers.

That it is very hard to teach a subject and have everyone understand what you are teaching. Also another one is getting ready for a day all the hard work you put into the project and see how many people really get effected by what you did. It's amazing.

That the teachers don't know everything and they need help on some things too.

It has made me more appreciative of the teachers. I think that it would be really hard to teach a class, and be very reliable.

District: USD 405 Lyons

School: Lyons Middle School

The teachers were very cooperative and the school provided us with all the equipment we needed and helped us greatly.

i've discovered a new side of the teachers i interacted with. Good and bad

i dont know i have always respected my teachers

It made me think school was a lot more fun then I had thought before that. I still like school a whole lot.

I now realize the hard work Mrs.Nichols goes through to get all of the tech things accomplished. Our school has more new technology equipment than I thought.

A little I know that teachers need help to.

District: Vallivue School District

School: Vallivue High School

BY THE OPERTUNITY TO WORK WITH OTHER TEACHERS THAT I DON'T HAVE IN CLASS.

school hasn't changed much either, it is just the way things are done. i helped changed the way things are done. teachers have found new ways to teach due to this class.

IT hasnt changed the way I think of feel about school and teachers.

My experience in Generation www.Y has changed the way think and feel about school and teachers by showing me that they are not all that bad and has been able to give me the type of relationship that I need to have with a teacher.

It made me understand a little better how hard it is to be a teacher. i felt kinda bad for them. but that went away after a while.

I have found that some teachers do need quite a bit of help with technology. That changed the way I taught the technology to the teachers.

District: Vallivue School District

School: Vallivue High School

i feel that the teachers do and will listen

All that i have to say is that Mrs. Williams was a very good Gen Y teacher. she is amazing and is a wonderful teacher that i wish i had for my English teacher.

I feel a lot more comfortable talking to teachers and helping them with their problems.

my teacher didn't really want to help out with the project AT ALL so I had no experience except for with Mrs. Williams who is a nice teacher and open to gen-Y but thwat is probably because she teaches it.

Well for one thing I really like Mrs. Williams and she is really nice.I can't answerthe other question because there wasn't a change at all. So.

i have become better friends with my teacher-partner mrs.williams

Yes, I believe that I can do things that I havent been able to do before. I will talk to teachers and other students about things that consern gen y.

My experience in Generation www.Y has changed the way I think or feel about school and teachers by showing me that they need technology in their classroom

It hasn't.

The experience in gen y had not changed the way i think or feel about school and teachers.

it hasent

The way that I feel about school has not changed because of gen Y.

District: Vallivue School District

School: Vallivue High School

Gen Y has helped me like my teachers more, and get more involved with computers, and other electronics.

I learned a lot this is one of my favorite classes.

I believe that my teachers do know how to still learn. I know now that teachers are willing to let a student show them how things are done.

No

It did not change the way i think or feel about school and teachers.

I now feel that teachers are more like a friend than an 'adult'.

School: Vallivue Middle School

At first I just thought teachers were boring, now I just want to throw them out the window. just joking, again. Well actually I have more respect for teacher's because I kinda found out how much time and energy it takes to be a teacher.

It didn't change anything about the way I feel, think, or react. I still think that school is great and teachers are there to teach us, it's their job.

I know that I can also teach things to others. I feel like I have more confidence in being incharge of my own learning.

I don't know if this has chanced the way I feel about school and tachers, because i always thought those things werre pretty cool.

Yes agian I have had better experiences with the schools computers and no longer have trouble working with them or helping set them up.

Yes because now I know how some of the teachers are at my school.

District: Vallivue School District

School: Vallivue Middle School

This class made me feel good that I could teach to a teacher and her class.

I loved getting to know my teacher.

I could work with teachers easier than I thought and I have more respect for my teachers than I originally did.

Good

It has changed the way I feel about school and teachers.

Yes again I have had better experiences with the schools computers and no longer have trouble working with them or helping set them up.

GenY has made me learn that all teachers are human.

GenY has made me learn that all teachers are human.

It did not make me feel any different about the teachers.

I feel good about what I have done and I like how my teachers know that I am the technology kid. I find that teachers come to me because they know that I am a Gen Y student.

It did not make me feel any different about the teachers.

I love that I was able to create something to be used by the whole school.

District: Vallivue School District

School: Vallivue Middle School

I think they are a bit funner than I did before.

I have learned that the principle is not a scary guy that gives out detentions, but he is a nice guy that I can even talk to.

This class made me feel good that I could teach to a teacher and her class.

I have learned and grown so much. Gen Y is the greatest thing. I feel like I have a family of friends ate school now because of Gen Y. I no longer feel like an outsider looking in. My teachers even like me more.

I have seen my school and the teachers grow in their technology skills. In the begining a lot of the teachers did not even know how to use powerpoint. Now I have helped several teachers create and maintain web pages. I loved presenting at the college a

District: Washburn School District

School: Dupont Middle School

I can help out the teachers.

Yeah!

I get to spend more time with them and now I feel better about the way the teacher's do projects. (Now that we have showed them and helped them make projects learning is funner!)

None

I think that now that I know how to do all of this, I can have fun and surprise the teachers what I can do.

Well it kinda makes me fell at home and that i know more people cause i just moved here this year.

It has because I think Mr.Kirsteis really nice now.

District: Washburn School District

School: Dupont Middle School

My experience with GenYEs has changed the way I think and feel about my school and teachers because, now I know that I can help teach the teachers, and that sometimes kids know things that trachers don't. And I formed a better relationship with my teacher

Now me and my partner-teacher are better friends and I can help teachers

Um?? yes

I think it's good that we have a class where we can make a lesson plan.

District: West Franklin Unified School District 28

School: Pomona Middle School

Hasn't

I dont know.

I feel the same my thoughts have not changed.

A little bit. I think that the class was boring because we didn't ever learn anything. We just went straight to our projects. It is a good thing that I knew how to use Hyperstudio already.

Well I learned that I need to learn a lot more about the computer and internet adn how to use it successfully.

I dont know

The Same.

District: West Linn - Wilsonville

School: Boones Ferry Elementary School

I think I might think of teachers in a different way because I know a couple more things about computers than some teachers do.

I feel smarter about technology and more of a leader on technology.

I think they can be a lot more fun now that kids are helping run the class.

Not really much, besides technology experience.

Teachers have fun on this as well.

I like a lot more teachers since a lot come like Mr. Julius.

I get to understand more of what they do and I get to work with them.

I found how a teacher has to get up in front of the class to teach and if they learn something that is not true they will blame the teacher.

I don't know.

I like a lot more teachers since a lot come like Mr. Julius.

not that much.

I think that it has made me tired.

District: West Linn - Wilsonville

School: Boones Ferry Elementary School

It made me think school was a bit better.

I got to learn more about my teacher and had fun with my teacher.

District: White Pass School District

School: Glenoma Elementary School

I think it helped me know that they work hard to acheive what they are teaching to the students.

I felt that gen-y taught me alot of things that I did not know about computers and other things.

I felt that gen-y taught me alot of things that I did not know about computers and other things.

I felt that Gen-Y has helped alot on my typing and other comuter skills. It makes me feel grate to get closer to the forth grade teacher. I really loved this project and I am glade that I was asked to do it.

I think it is more fun to be around my teachers because spending time with all of them let me see their funny side. It was fun geting to know the real them

District: Wichita Public Schools 259

School: Allison Traditional

I feel that I have gotten to know my teacher a little bit better than before. We are much closer.

I don't know

I had a class to look forward to each day.

Nothing has changed a bit.

District: Wichita Public Schools 259

School: Allison Traditional

I also think that the teachers know alot about the computers aswell as the students.

i feel like teachers are not as much higher and smarter than us than i thought

Well, I new before how hard teachers work and how stressful it is, considering my mother is one. Even so, I more to learn, and I did it here.

I am more comfortable working with teachers and talking to them. Asking questions is now easier for me.

It hasn't changed the way I feel about teachers. I still enjoy working with them and get along very well with most of them.

I feel that I can use a computer better than ever.

I like my teachers.

Yes I feel that the teachers work verey hard at what they do.

It was exceptionally hard to get along with the gen y teacher. He gets upset very eaisly and is difficult to work with. But Overall it was a good experience. I wouldnt take this class again though.

They are easy to work with

it hasnt changed thais eather.

I got to know a teacher alot better. I don't think it really changed the way I felt/feel about school.

District: Wichita Public Schools 259

School: Allison Traditional

It made me realize how hard they have to work on their computers when they brake down.

I don't think that my experience in Generation www.Y has changed the way i think about teachers.

I will help them understand things a little bit more.

I feel like this school has more technology than I realized.

I think I have more respect for my elders and my teacher. I know how hard they have to work.

yes it has

my experience has made me respect them more because i realize now that they have a pretty big job.

I trust teachers

no it hasn't

I feel that teachers and school are a lot more important than I realized

I liked my partner/teacher.

Now I can feel good about myself because I helped a teacher make a website.

School: Brooks Magnet

District: Wichita Public Schools 259

School: Brooks Magnet

it has made me respect them more because they have a hard job.

It hasn't really changed me that much.

it hasn't

It has not.

it hasn't

It hasn't I feel the same way about teachers and school. I feel that it is hard to communicate with teachers because they never have time for students and they think that they know everything and really don't know nothing. They just think they do.

I don't know

It hasn't really. I feel the same way that I have always felt.

I think teachers are helpful

I think teachers need help with stuff like students.

I feel a little more respectful towards them

GenY has changed my outlook on teachers. I respect them more than before.

District: Wichita Public Schools 259

School: Brooks Magnet

I feel wonderful to know that teachers can learn new things also and they also need help in things.

They are teachers but they still can use help in certain areas of technology because the kids were born able to learn to how to use technology more then the adults

I know more about Mrs.Stehm.

yes it has

School: Hadley Middle School

Not much.

School: Heights High School

it made me feel like they were more able to do the job

Teachers are normal people and they aren't always as mean as they seem in class.

i had fun

I learned that alot of teachers are proud of the work I do and are mostly very pleased at the speed at which I can complete most projects.

I now know that a teacher has to do more than just give his/her students work. There is much effort behind what appears to be a simple lesson plan. Im sure that my fondness for my school has grown enormously.

school sucks

I learned to appreciate my teachers and the hard work they put into their job.

District: Wichita Public Schools 259

School: Heights High School

I got the feeling that "some" teachers don't like learning things from students or "kids". An don't enjoy coming to students with problems that they can't solve themselves. As for school, it runs a lot like a business. With the teachers job being to train

Yes, I have learned that teachers do like to work with students on a project like this.

That most teachers are willing to listen to use peoples.

School: Robinson Middle School

I think we have a pretty good technology department at our school. The teachers know how to use a pretty good amount of it but could use a little help now and then.

No

While I was working on the tour, I learned more about the sixth grade teachers.

I think this has helped me understand my teachers a little more.

After making some powerpoints and movies, now I truly appreciate the time our teachers take to make them for our classes.

Yeah, I honestly didn't think that school could be really fun.

um....i dont know

My opinion has not changed at all about teachers or school except I now know there are some projects in school that can be fun at times!

By going behind the scenes of different school projects or classroom projects, I got to know a lot more about different classes/students/teachers/staff than I had before.
